

TWO VIEWPOINTS AT EMPIRE CONFERENCE

Ulster Parliament Opened in Belfast To-day by the King

Hope Expressed By King George Event May Be Step
Toward End of Strife in Ireland; King and Queen
Enthusiastically Welcomed.

Belfast, June 22.—King George and Queen Mary departed from Belfast for London in perfect safety at 4 o'clock this afternoon. The programme mapped out for the opening of the Parliament of Northern Ireland was followed strictly without a hitch. The King read his speech to the Parliament in an impressive manner and with a clear voice, making every word distinct.

Belfast, June 22.—King George and Queen Mary having journeyed from England on the tenth anniversary of their coronation, presided at the state opening of the Ulster Parliament to-day. It was the first time in nearly twenty years that Ulster had had an opportunity of receiving the sovereigns of the British Empire and its welcome helped make the occasion a memorable one.

The ceremony of the opening was similar to that attending the inauguration of the British Parliament in Westminster and was a brilliant spectacle. There was but little room in the City Hall, where the function took place, for those having cards of admission, but it was a distinguished assemblage that watched an event regarded as marking an important epoch in Irish history. Sinn Fein and Nationalist members of the Parliament did not participate.

The visit of the King and Queen was looked upon as a fitting observance of their coronation anniversary. The King had not been in Belfast since he came here in 1902 as the Duke of York and he and his consort were given a right royal welcome to-day.

Demonstrations.
From the moment their yacht Victoria and Albert dropped her escort at the entrance to Belfast Lough to make her way up the channel to the dock, the King and Queen were the objects of enthusiastic demonstrations by the loyalists of Ulster. The people of County Down, on the south side of the Lough, and County Antrim, on the northern shore, vied with each other in extending greetings. An even noisier welcome was tendered the King and Queen as their yacht steamed past the shipyards, where the cheers of thousands of workers mingled with the shrieks of whistles and sirens. King George and his consort stood on the bridge of the steamer and acknowledged the greeting.

Salute.
As soon as the King and Queen had set foot on the dock a royal salute boomed out, announcing they were on Irish soil, and the crowds that lined the long street leading to the City Hall strained at the barrier walls of soldiery and police to catch a glimpse of the approaching procession. The wait was short. With the exception of the formal reception of Viscount Fitzalan, Lord Lieutenant of Ireland, and Lord Pirrie, who appeared in behalf of the Mayor and members of the Belfast Council and the sovereigns proceeded, at once to the Council room, where the ceremonies immediately began.

Luncheon.
When they were completed the King and Queen were entertained at luncheon by James Craig, the Premier of Ulster, after which they were driven once more through the streets to Ulster Hall, where they received addresses of loyalty from various organizations.

End of Strife.
Belfast, June 22.—"I speak from a full heart," said King George in his speech formally opening the Ulster Parliament here to-day, "when I pray that my coming to Ireland to-day may be the beginning of a new era of peace and harmony."

SHIP ASKS AID.
Houston, Tex., June 22.—The steamship William D. Doherty has lost a propeller in a Gulf storm and has asked for help.

GRAIN INQUIRY CASE AT WINNIPEG
Argument Heard To-day on Injunctions

Winnipeg, June 22.—(Canadian Press)—The Federal Government feels that the courts should not be called upon to interfere with Order-in-Council appointing royal commissions. It was stated to-day by O. M. Biggar, K. C., of Ottawa, counsel for the Department of Justice, in defending before Mr. Justice Curran the legality of the appointment of the Royal Grain Inquiry Commission.

As One Case.
Mr. Justice Curran began the hearing as one case of the two interim injunctions granted the United Grain Growers, Ltd., and forty other grain growers, restraining the Grain Commission from continuing. The commission was attacked in the arguments on the ground it was operating on an invalid Order-in-Council, and that, even if the appointment were legal, the commissioners had conducted themselves illegally, and apparently in this connection the Lord Williams session came in for discussion.

STILLMAN LAWYER VISITS MONTREAL
Yankers, N. Y., June 22.—Counsel for Mrs. Anne U. Stillman, defending the divorce suit brought by her banker husband, declined to-day to comment on the departure of one of their number for Montreal. They would neither confirm nor deny a report that he would seek to bring back Fred Beirals, Indian judge named as co-respondent, to testify for Mrs. Stillman.

SIR J. F. FRASIER PREDICTS PEACE IN IRELAND TO-MORROW

Rochester, June 22.—Sir John Foster Fraser, of Edinburgh, speaking at Webster, near here, predicted that something would happen on Thursday to end the rioting and rebellion in Ireland.

"Watch the date, Thursday," he urged, "and see if I am not right. I know what I am talking about. There will be peace in Ireland this week."

**THREE MEN TAKEN
IN BELFAST HAD
AMMUNITION**

Belfast, June 22.—The police in the Upper Falls district of this city, hearing firing in that area to-day, pursued eight men suspected, and captured three of them, who were found to have ammunition in their possession.

Soldiers with machine guns were occupying vantage points in the Falls District.

**FRENCH MISSION
VISITS CANADA**

Will Thank Dominion For War Aid
Will Present Bunt to the Government

New York, June 22.—The members of the special mission appointed by the French Government officially to thank Canada for coming to the aid of France in the war arrived on the steamship Paris, the new ship of the French Line, which concluded her maiden voyage when she docked here this morning. The mission is headed by Marshal Fayolle.

The mission will open a Franco-Canadian Exposition train at Montreal.

It brought for presentation to the Canadian Government a bust by Rodin, symbol of France after her victory, bearing in French the inscription: "To Canada, who has poured out the blood of her sons for the liberty of the world, from grateful France."

SIR G. E. FOSTER HONORED.
Lewiston, Maine, June 22.—Bates College conferred the honorary degree of Doctor of Laws upon Sir George E. Foster here to-day.

**Mr. Meighen Insisted
Conference Debates
Be Fully Published**

London, June 22.—(By Staff Correspondent of the Canadian Press)—The idea that the conference of Empire Prime Ministers partook of the nature of a Cabinet council was shattered by the decision yesterday to make the proceedings public. Credit for this step is largely due to Premier Meighen, who at the opening meeting on Monday made a strong plea for publicity. He said:

"If the conclusions are sound and are to be acted upon they must be accorded not only general publicity but also the most thorough publicity throughout the countries we represent. Therefore it is essential that we fully inform the public of our proceedings. The problem is not a simple one, but I venture to suggest that it is better in the long run to err on the side of publicity rather than on the side of secrecy."

**CONFERENCE PLAN
IS POSTPONED**
No Empire Constitutional Gathering Next Year

London, June 22.—(By Staff Correspondent of the Canadian Press)—The only thing that yesterday's sessions of the conference of Empire Prime Ministers made clear was that a constitutional conference will not be held next year.

Premier Massey urged strong reasons against it on the grounds that he was faced next Summer with a general election in New Zealand. Premier Hughes, as already noted, is strongly against a conference being held at all, while Premier Meighen, who is also confronted with an election next year, will urge delay.

**LABORITES APPROVED
IRISH RESOLUTION**

Denver, Colo., June 22.—After a stormy debate, the American Federation of Labor convention to-day disposed of the Irish question by adopting a resolution—trimmed of its most drastic boycott provisions—expressing sympathy for the Irish national cause.

This came after sympathizers with the Irish republic idea, supporting a resolution calling for a boycott against British goods, had been overwhelmingly defeated in an attempt to have the convention overthrow a ruling made by President Samuel Gompers which prevented reconsideration of their proposal.

EDITOR DIED.
Boston, June 22.—General Charles H. Taylor, editor and publisher of The Boston Globe, died at his home to-day. He had been fairly active until recently, but two shocks within a week of each other preceded his end. He was seventy-five years old.

FORTHCOMING PICNICS

June 22—Civic picnic, Mount Douglas Park.
June 24—Crestflower Parent-Teachers, at school.
June 25—Christ Church Sunday School, Deep Bay.
June 25—Unitarian Church, Spoon Bay.
June 25—North Dairy Parent-Teachers, at Blenkinsdon Road.
June 29—Garden Head fete, Gormerant Point.

Beer Selling to Start In Veteran Clubs Here But for Members Only

Beer selling will likely start in Victoria on Friday along the lines of the sale in soldier clubs in Vancouver.

The first organization to prepare to start up is the Army and Navy Veterans' Association. Other soldiers clubs here will probably follow, if they do not open at the same time, it was said to-day.

Because of the backing the Army and Navy Veterans have in this city and the popularity of the club, they undertook to find out just exactly how far they could go. Investigators were sent to Vancouver to see just how beer selling is worked there. The report will be presented and dealt with at the meeting of the organization to-morrow night.

Life Looks Brighter.
Signs of relief went up from the thirty part of the population when the word went around to-day that a drink of beer could soon be obtained by the bottle or from draught.

The strain of the uncertainty hanging over the future of unrestricted beer distribution during the last week has borne heavily on many individuals.

To-day, however, as prospects changed, life took on a rosier hue. Bartenders who have been waiting from the overwork accompanying the final ceremonies of bar closing a week ago yesterday, immediately got into training again.

Opening of club bars, advocates declare, will relieve the unemployment situation, as it will absorb many of the bartenders who are now on a forced holiday.

Clubs to Behave.
At the Liquor Board office to-day it was said that no action has been taken against the clubs in Vancouver which are selling beer. It was explained that the clubs have given their word that open beer selling is not being attempted or permitted. All that is allowed is distribution of beer among members. The clubs have said to-day that the liquor drinking under the Act is prohibited in a public place.

It was also made clear at the Liquor Board to-day that the raid and prosecution of the G. W. V. A. at Fernie can in no way be blamed on the Liquor Board, as it was planned locally and was merely an attempted coup on the part of the local police at Fernie.

Members Only.
Information furnished by the branches of soldier clubs by their Vancouver branches is that beer sale will be all right, provided no attempt is made to work in any hard stuff. Everything learned by delegates was said to-day to be quite satisfactory to local clubs.

League Is Setting Up World Court of Justice

Geneva, June 22.—The League of Nations Council is proceeding with arrangements for the installation of the Permanent International Court of Justice, in full confidence that sufficient ratifications will be received to put the plan into effect before the Assembly meets in September. Twenty-four ratifications are required to put the statutes into effect and these are assured, according to the Council's information, the Hedjaz making the twenty-fourth country whose ratification is certain.

Bolivia is the latest country to sign the court's protocol, bringing the total to thirty-nine.

MASONIC VISITORS ARE WELCOMED HERE

Two Hundred Masons Attend Grand Lodge

Masons from all parts of British Columbia, and invited guests from various points in Western Canada and the United States to the number of about 200 attended the opening of the twelfth annual convention of the Grand Lodge of British Columbia, A. F. and A. M., here this afternoon.

Following the registration of members of the Masonic Order at the Masonic Temple this morning visitors were driven about the city and district. Following an address of welcome by E. B. Paul, divine service will be held this afternoon at St. John's Church, where V. W. Brother Rev. P. A. P. Chadwick, Grand Chaplain, assisted by M. W. Brother the Rev. C. E. Sharpe will officiate. This service will be attended not only by the visitors, but also by Victoria Masons, all officers wearing regalia and members of the Constituent Lodges their aprons.

A banquet will be held at the Drill Hall, Mezzies Street, to-night followed by a theatre party and the ladies. Toasts at the banquet will be as follows: "His Majesty the King," "The President of the United States," "Most Worshipful Grand Lodge of British Columbia," response by the Most Worshipful Grand Master, M. W. Bro. M. L. Grimmer; "Sister Grand Lodges," proposed by M. W. Bro. H. H. Watson, responses by visiting brethren. Address, M. W. Bro. the Rev. C. E. Sharpe, "Freemasonry as a Living Issue to-day." Address, M. W. Bro. the Hon. Thomas E. Skaggs, P. G. M., of Washington, "Freemasonry and the Progress of Human Freedom."

Masons attending the various functions to-day include some of the highest members of the order in the commissions as issued.

New Arrivals in Canada Nearly All From Britain

Ottawa, June 22.—(Canadian Press)—The tightening of regulations governing immigration into Canada is having its effect on the influx of new citizens, according to officials of the Department of Immigration and Colonization. Steamships coming to Quebec at the present time are stated to be bringing only small numbers of immigrants and these are practically all farm or domestic workers.

Further restrictions on account of physical unfitness are taking place on this side of the Atlantic this year, it was stated, and this is due in part to the enforcement of the new regulations, which are bringing about a closer inspection of would-be immigrants before their departure from the other side.

Practically all the immigrants now arriving are coming to Canada from the British Isles. It had been anticipated that the blocking of Italian immigrants at United States ports recently would have resulted in some of these travelers seeking to gain admission to Canada, but since the United States Congress has passed emergency regulations allowing the landing of those who had sailed before the passing of the restrictive measures the pressure has been relieved and those who were held on vessels in American harbors have been allowed to land. There is therefore little likelihood of these immigrants seeking to reach Canada, it is stated, unless they first land in the United States and afterwards make their way across to Canada borders.

Views Similar TO AUSTRALIANS'; PREMIER MASSEY

The longest speech so far at the conference of Empire Prime Ministers in London has been delivered by Mr. Massey, head of the Government of New Zealand.

**U. S. MINISTER
TO DOMINION
PREDICTION**

New York, June 22.—(Canadian Press)—The United States will be pleased to see a Canadian Minister at Washington, says The Tribune to-day, commenting on Mr. Lloyd George's reported statement before the British Empire conference.

"The new Canadian Minister apparently will be a member of the diplomatic corps on the same footing as the Ministers from other American or European States," The Tribune says, and concludes:

"Whatever the nature of the change in Canada's external relations, the United States would be pleased to see a Canadian Minister in Washington and a United States Minister in Ottawa. We have the same old Irish story to adopt a world point of view as our northern neighbors. It is to the interest of both nations that they should be brought into still closer economic and political co-operation."

Gen. Smuts Urges Disarmament Move As Nations' Need

Says Empire Should Prevent a Race In Armaments; Hughes Favors Alliance With Japan and Per Capita Assessment For Navy.

London, June 22.—(By Staff Correspondent of the Canadian Press)—That the conference of Prime Ministers of the Empire is not going to arrive at any conclusions without passing through sharp controversies is evident from a verbatim report of the proceedings at yesterday's sessions. Thus, while Lieut.-General Smuts, Prime Minister of South Africa, made a characteristic plea for disarmament and strongly advocated a conference with the United States and Japan respecting the problems of the Pacific, Mr. Hughes, the Australian Prime Minister, who followed General Smuts, leaned heavily toward renewal of the Anglo-Japanese Alliance, and advocated naval expenditure upon a per capita basis and concluded by deprecating the need for a constitutional conference.

Mr. Massey, Prime Minister of New Zealand, who is the Marathon orator of the conference, made a lengthy speech and although he avoided specific declarations, made it clear that on the most important questions he was on the same side as the Australian Prime Minister.

Premier Meighen is still to be heard on these subjects, and while he has admirably kept his own counsel so far, the press is concerned, it is a practical certainty that he will be an ally of General Smuts, particularly on the question of the proposed Alliance. What the position of Premier Lloyd George will be remains to be seen, but the weight of opinion here indicates that he will fall in with the idea of disarmament and a conference on the Pacific question.

Peace Needed.
London, June 22.—That what the world needs most to-day is peace was the argument developed by Lieut.-General Smuts, Prime Minister of the Union of South Africa, at the session of the conference of Prime Ministers of the Empire yesterday afternoon.

The British Empire had no military aims to serve, he declared, and no military ideals, and it should be the main, in fact the only, object of British policy to ensure peace for the Empire and the world generally. Much had been done to bring about a settlement with Germany which he hoped would prove final and workable. "That is a great victory," he said, "but it is not enough."

"The other great advance that has been made is an enormous advance—the final disarmament of Germany. That the greatest military empire that ever existed in history should be reduced to a peace establishment of 100,000 men is something which might have been considered practically impossible. It is a great achievement—so far-reaching, indeed, that it ought to become the basis of a new departure in world policy."

No War Policy.
"We cannot stop with Germany; we cannot stop with the disarmament of Germany. It is necessary for us to continue to envisage the future of the world from the point of view of war. I believe it is impossible for us to contend for the future of the world and the exhaustion of our very limited remaining resources in order to carry out a policy of disarmament. Such a policy would be criminal. It would be a betrayal of the cause for which we fought during the war, and if we embarked on such a policy it would be our undoing."

"If we were to go forward into the future staggering under a load of military and naval armaments while our competitors in Central Europe were free from the incubus of great armies, we should be severely handicapped and in the end we should have the fruits of victory lost to us by our post-war policy."

Already Observed.
"Already circumstances are developing on these lines. Already against the operation of the inexorable economic factors we find that a position is developing to the advantage of Central Europe. The depreciation of their currency, the universal depreciation of currencies and the unsettling effect of the exchanges are having the effect of a practical repudiation of the effect."

Industrial Conference Is Urged Now in Britain

London, June 22.—(Canadian Associated Press)—The National Alliance of Employers and Employees of Great Britain has asked the Government to summon at once an industrial conference representative of all the masters and men now engaged in wage disputes, with instructions to try to save the industrial situation from chaos. At the same time it is understood that the Labor Party and the Trade Union Congress are considering calling a conference in London to be due to deal with the proposal of a general strike in support of the idle coal miners.

Intimidation.
Reports from the districts to-day show that no large number of miners have resumed work, but that it is due to intimidation rather than unwillingness.

In Derbyshire some pits are working despite interference of strikers, and in Nottinghamshire also a few pits have resumed work. It is estimated that in Derbyshire alone, about 100,000 tons of coal have been produced.

Little Consolation.
The address of Frank Hodges, secretary of the Miners' Federation, before the Labor Party conference at Brighton yesterday, did not offer the miners much consolation. While he claimed that the plan of a general strike would work out all right, he did not test the feeling of the conference and his speech throughout rather suggested the conviction that surrender was imminent through exhaustion. He admitted that other unions had already contributed £100,000 to the miners' strike fund, and that the strikers and their families were nearing the limit of their endurance. In view of these admissions he asked that the strikers' miners would bring down the Government, which he blamed for the situation, and generally regarded as a weak Government.

AVIATION STAFF PLAN DEBATED

Canadian Air Force Association Holds Meeting

Camp Borden, Ont., June 22.—(Canadian Press)—The night session of the Canadian Air Force Association continued until 2.30 o'clock this morning. The chief points under consideration had regard to an amendment of the present organization in the direction of the formation of the nucleus of a permanent staff and the placing of all flying operations, both civil and military, under the new head.

Maj.-Gen. Sir Willoughby Gwatkin, Inspector-General, and Major-General Macbrien were greatly pleased with the keenness shown in the discussion. Much emphasis was laid on the importance of university training and the need of obtaining university students in the Force and the question of an Air Force school for boys was discussed at length. Much constructive criticism was offered and many new points developed in connection with aviation in Canada.

DRAYTON STATES DEBT POSITION

Minister Speaks of Finances of Canada

Ottawa, June 22.—The amount paid annually for interest on Canada's national debt is \$23,000,000 less than the total receipts of the country in 1913-14, according to a statement made yesterday afternoon by Sir Henry Drayton, Minister of Finance. Sir Henry, referring to a statement made by Hon. T. A. Crea, at the University of Alberta, Saturday, to the effect that the annual interest on the Dominion debt is larger than the pre-war revenue, stated that if Mr. Crea had been correctly reported his statement was in error.

The total revenue in the fiscal year 1913-14 was \$163,174,394, and in 1912-13 \$168,690,427. The annual interest payment is now about \$140,000,000. Sir Henry stated that there is a revenue from interest-bearing debentures made for the most part during the war period, which should be taken into consideration in estimating the amount of the debt and the net amount of interest, which has to be provided by taxation thereon. Last year the interest on investments amounted to \$23,000,000.

Increase.

The statement made by the Minister of Finance continued: "A further statement is attributed to Mr. Crea that last year the country's debt was increased by \$100,000,000. This bare fact is not disputed, but attention is drawn to the statement given in the budget speech, which was to the effect that it covered, with revenue, not only all current charges, including some \$212,000,000 due to war burden, but also provided for capital expenditure of \$26,000,000 and demobilization of \$20,000,000 and left a clear balance of \$12,238,000 after meeting all these obligations.

The increase in debt was therefore more than entirely due to the outlay for railways, a good portion of it being for expenditures which ought to add to the value of the property and increase its earning capacity. Owing, however, to the fact that the railways are not at present paying, the policy of the Minister of Finance has been to regard the whole expenditure as an addition to the debt rather than, as in the past, an investment reducing the net debt."

HYPNOTISM, \$50 AND COURT ACTION

Montreal, June 22.—Truett husband, in the opinion of J. L. Fortier, expert on hypnotism, who was charged yesterday afternoon with obtaining \$50 through false pretences from Mrs. Emilie Fortier, Fortier received the money from Mrs. Fortier on the understanding that her husband would return to her more affectionate than ever. The lady was told to recite certain mystical formulas, but hubby failed to respond to the telepathic power.

Mrs. Fortier paid the \$50 in five-dollar instalments but her husband proved adamant to the "treatment," and finally she took action against Fortier. Judgment will be given June 28.

NEW CONSTITUTION OF JUGOSLAVIA

Hereditary Constitutional Monarchy is the Plan

Jugoslavia's new constitution, recently adopted in principle by its Parliament, sets up an hereditary constitutional monarchy to be known as "The State of the Serbs, Croats and Slovenians, according to an Associated Press mail dispatch.

Peter Karageorgevitch (King Peter of Serbia) is formally recognized as King Peter the First and Prince Alexander, the Regent, as heir apparent. The crown will descend in the male line, with the majority of the princes fixed at eighteen years of age. A single chamber is provided for in the constitution. Deputies are to be elected by direct, secret ballot for four years and by universal suffrage, with a deputy for each 50,000 inhabitants.

To co-ordinate the varied legislation and governments of the countries now grouped in a federation, a constitutional committee will sit for five years, empowered to offer codifying laws that must be either accepted or rejected by the Chamber.

Minorities and religious cults are protected but the clergy are prohibited from using their officers in partisan politics.

MORE TROOPS ARE SENT TO IRELAND

Battalions Take Up Duty in Disturbed Island

London, June 22.—More troops are to be sent to Ireland, according to the Secretary for War, Sir Laming Worthington-Evans. In reply to a motion for adjournment on the question of the situation in Ireland, he said in the House of Commons: "Extra battalions went to Ireland last week, and more will go as quickly as possible. It is necessary to support the troops in Ireland, who are doing duties which are often distasteful to them, with the full might of the Empire. Therefore all troops available should be sent to their support."

Hierarchy's Statement.
Dublin, June 22.—The Roman Catholic hierarchy has issued a declaration in which it declares "that the situation in Ireland, which is now threatened with darker deeds because Irishmen rightly have spurned the sham settlement devised by the British Government in defiance of Ireland."

The declaration complains that a special Government has been given to Ireland at all times for interference, "without the slightest provision to safeguard the victims of ever-recurring cruelty and persecution directed against the Catholics of Belfast."

BRITAIN'S FINANCES REVIEWED BY WRITER

London, June 22.—The financial editor of The Times calls attention to the effect of the industrial crisis on national finance, and to the grave difficulties facing the Chancellor of the Exchequer. He says that already there is talk in the House of Commons of the necessity of bringing in a second budget to meet the altered situation. The editor remarks that though the coal strikers' ballot has on the stock exchange, it must not be supposed that the city underrates the disastrous effect of the coal stoppage on national finance.

He points out that the budget estimates have been seriously damaged by the unlooked for expenditure, which has been incurred to the extent of many millions, while revenue has shrunk.

The writer claims that a fresh period of inflation has begun, the floating debt being over £71,250,000 higher than a year ago. The present indications point to a heavy deficit at the end of the year, which will probably have to be met by the expansion of the floating debt and all that involves, says the editor.

Concluding, the critic remarks: "This is a sorry prospect to follow the great effort which this country has made to finance war expenditure on sound lines."

ANCIENT TOMBS FOUND IN GREECE

Students of an English School of Archaeology have discovered at Mytilene, in the Greek province of Boeotia, thirty-five tombs dating from the fifth and sixth centuries before Christ, according to an Associated Press mail dispatch. The condition of the tombs has not yet been announced.

EXPECTS PEACE WITH RUSSIA

Roumanian Opinion Expressed by Foreign Minister

Peace between Roumania and Soviet Russia, seems assured in the opinion of Take Ionescu, Roumanian Minister of Foreign Affairs, according to an Associated Press mail dispatch from Bucharest.

"We do not meddle in internal Russian affairs," he said, "any more than we would permit any meddling in ours. The Soviets reiterate that they have no intention of attacking Roumania and to believe them and I know that we shall not attack."

"According to our information there are fewer Bolshevik troops on our frontier than there were during the Winter."

"Likewise we have truly friendly, fraternal relations with Poland, Czechoslovakia, Yugoslavia, and Greece. With Poland, we are in agreement to maintain peace on our eastern frontiers. We are opposed to the return of the Hapsburgs, which would be a great danger for the peace of Europe."

Economic conditions in Roumania, he said were improving, the finances were in good condition and the future seemed favorable.

NEW DISCUSSION OF POLITICS

Grouping of Parties in Britain Talked Over

London, June 22.—(Canadian Associated Press)—Press comment on the Marquis of Salisbury's letter advising Unionists to consider themselves free from any binding obligations to support the Lloyd George Coalition Government discloses considerable divergence of opinion regarding the advice as a matter of policy, but the letter has certainly attracted much attention. Mostly the disposition is to deprecate the attaching of undue importance to it, but many treat it as symptomatic of the dissatisfaction existing within the ranks of the Unionist Party, and point to the election of Anti-Waste members.

The Daily Chronicle, a leading Lloyd George organ, declares that the great body of Unionists in the House are loyal to the coalition and probably will remain so to the end of the chapter, which The Chronicle thinks may not be reached at the next general election.

The Morning Post regards Lord Salisbury's letter as another stage in the process of the emancipation of the Unionist Party.

Disregard It.
On the other hand, The Daily Telegraph, while allowing that any pronouncement of Lord Salisbury commands respect, says the Unionists will do well to disregard absolutely the advice he tenders. The paper reminds its readers that Lord Salisbury, like his brothers, Lord Hugh Cecil and Lord Robert Cecil, who have gone into the Opposition, has never been a zealous coalitionist.

The Times heartily supports Lord Salisbury and roundly denounces the coalition for having, in place of conserving the national resources, embarked on a social programme which would have been ambitious before the awful destruction of the war.

The Manchester Guardian declares that "a coalition of political parties opposed to each other on essential points of principle is, except in order to meet some great national emergency, at once immoral and ineffective, implying perpetual surrender of convictions on both sides to the bargain."

That is what has happened to the present coalition and Lord Salisbury, for one, is tired of it. The Guardian adds:

Sir Gilbert Wills, coalition-Unionist member for the Western division of Somerset, will retire at the end of the present Parliament, he states, on account of his objections to the present grouping of the political parties.

LONDON BANKERS SENT TO PRISON

London, June 22.—Thomas Farrow, founder of Farrow's Bank, the failure of which just before last Christmas brought misery to thousands of small depositors, was yesterday sentenced to four years' penal servitude on conviction of having published a report and balance sheet for the year ended in June last which he knew to be false.

William Walter Crotch, an associate of Farrow, was also sentenced to four years in prison, and Frederick Harb, an accountant, who was recommended to the mercy of the court, was sentenced to twelve months in jail.

The two latter were charged with being implicated with Farrow in publishing the false report and balance sheet.

Gladys Walton, the diminutive Universal star to be seen here in "Rich Girl, Poor Girl," almost went on strike during the production of that picture, when Henry B. Harris, her director, informed her that some of the most humorous and important scenes in the picture would show her in a bath tub. In the story the poor girl, little Nora of the slums, takes a full course in soap and water as a part of transition into the silken-clad rich girl, Beatrice. The transition supplies some of the most amusing scenes ever put on the screen. Miss Walton finally was persuaded to realize the importance of the "Saturday night" scenes, and at last consented to pose for them, but specified that only women would be allowed on the set during bathroom scenes. "CHU CHIN CHOW" CLOSING AT LAST

Spectacle Made Record-Run of Half Decade in London

London, June 22.—After playing more than 2,175 consecutive performances in one theatre, "Chu Chin Chow" has at last closed at His Majesty's Theatre, Haymarket. The marvellously successful musical play has been running more than five years at this theatre, and 2,800,000 persons have witnessed the play there. Road companies have toured the English provinces, Australia and South Africa, and apart from the American production, it is estimated that more than five million persons have witnessed "Chu Chin Chow". The play, which is known in America through its New York production in 1918, is founded on the old story of "The Forty Thieves". In London, Mr. Oscar Asche has played the part of Abu Hassan, leader of the robbers, since the play first opened here, and Miss Lily Brayton has taken the part of the desert woman, who brings about Abu Hassan's downfall. Many members of the original cast are still in the company, and Mr. Asche has attributed the great success of the play to the fact that, in addition to the qualities of good music and good plot, the play possesses, the performance was never allowed to get into a groove or become mechanical. Others in the all-star cast of this special "Chu Chin Chow" production in the title role: Wesley Barry, Marjorie Daw, Pat O'Malley, Noah Beery, Tom Gallery, Priscilla Bonner and others. As an added attraction this week, T. Kelway has been engaged to sing two well-known ballads "Down Texas Way" and "Western Land." A good comedy and weekly round out an excellent programme.

PRINCESS

To-night the Mildred Page Players will present "Hello Bill," a musical farce with popular song hits as well as a number of good old favorites interpolated. This is a comedy of such well-known merit that it hardly needs to be recommended to the show going public.

"Hello Bill" is being produced in place of "Forty-Five Minutes From Broadway," the musical offering promised for this week but owing to delay and misunderstandings at play bureau the manuscript did not arrive in time for production this week, but will, however, be given a full and careful production at some future time.

Mr. Coots will appear as "Bill" and Miss Page as his sweetheart. The entire cast will be seen to advantage and "Hello Bill" promises to be a record breaker at the Princess this week.

To-night a cash prize of \$5 will again be given in the guessing contest. "Hello Bill" to-night and the balance of the week with the usual Saturday matinee. Little folks remember Capt. Kidd's contest, see the chest in Peden Bros. window, Yates Street, and send in your guess; \$50 is the prize for the winner if guessed this week.

DOMINION

The cast supporting Enid Bennett, in "Silk Hosiery," her new Paramount picture which will be shown at the Dominion Theatre all week has literally been gathered from the four quarters of the globe.

Miss Bennett is Australian by birth, and American by marriage and adoption. Geoffrey Webb, the hero of the romance, is an Englishman. Derrick Shand, a Belgian, who portrays the part of the foreign prince in the Frank Daze story, is still having difficulty with the English language, which according to him, "The more difficult tongue I learn, the less Russian."

Marie Pavis, whose dusky hair and dark eyes proclaim her French and Spanish lineage, plays the adventures and her partner in crime in the story is Donald MacDonald. Rose Dione, who interprets Mademoiselle Louise, is French. The remainder of the cast are Americans.

Quincy Arbuckle, the well-known stage and screen actor, has been engaged to play an important part in Marion Davies' cast in "The Young Diana," a Cosmopolitan production which Miss Davies is now working on at Intercontinental Film Studio, New York. "The Young Diana" is a screen adaptation of Marie Corelli's famous story which appeared in Headlines Magazine. Lester Koenig wrote the scenario. Albert Capellani, who directed "The Inside of the Cup," a great Cosmopolitan production, is directing "The Young Diana."

A 17-year-old negro boy was arrested at Baltimore charged with stealing a car Sunday, when he took a piece of ice in his wagon to a sick woman.

ANCIENT ART

OBJECTS DESTROYED

Damage Done in Riots in Dalmatia

The famous Palace of Rectors in the ancient fortified city of Ragusa, Dalmatia, has been closed to the public, according to an Associated Press mail dispatch.

The palace contained many priceless gems of painting and sculpture dating back to the Renaissance. In one of the recent anti-Italian demonstrations in Ragusa, soldiers invaded the palace and destroyed practically all of the paintings and sculpture. So much damage was done that now no one is permitted to enter the palace, which formerly was the chief treasure house of the city. Serbian soldiers now stand guard at the entrance and have orders to refuse entrance to anyone not on official business.

In like manner, many of the old relics of Venetian art and culture, which were to be found all along the Dalmatian coast, formerly the Venetian glory, have been torn down and destroyed.

The late James Gordon Bennett, who is said to have called Ragusa "the garden spot of Europe," was a frequent visitor there, having bought a villa on the island of Lacom, opposite the town and the site where Richard Coeur-de-Lion was shipwrecked.

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to Catarrh, success is general if the sufferer persists in the use of Catarrh-zone, and thereby drives Catarrh out of the system. Penetrating through the passage of the ear, the soothing vapor of Catarrh-zone relieves the inflammation, destroys the seeds of Catarrh and thereby allows nature to reassert herself. For Catarrh Deafness, pain over the eyes, plugged nostrils and other symptoms associated with Catarrh, use Catarrh-zone. You'll be more than pleased with the quick improvement in your condition. Two months' treatment, one dollar. Sold everywhere, or the Catarrh-zone Co., Montreal. (Adv.)

URGENT REMOVAL OF EMBARGO

Witnesses Heard by British Cattle Commission

London, June 22.—(Canadian Associated Press)—All the latest witnesses before the commission investigating the cattle embargo have advocated lifting of the embargo, in the belief that the price of meat would be thereby reduced. They have represented meat trade associations principally, but members of borough councils have also supported it. Another Scottish witness yesterday opposed the official view as to the length of quarantine for Canadian cattle. In his view, a few days' detention at the port of landing would be sufficient.

In Favor. So far as the weight of evidence appears distinctly in favor of removal of the embargo. Most of the opposition to this has come from Ireland, and with that, William Henderson, who farms 600 acres in Scotland, dealt very scathingly. What was wanted, he said, by those demanding removal of the embargo was that Canada should be placed in the same position as Ireland in regard to the British market, which ought to have another source of supply in addition to Ireland.

Continuing, Mr. Henderson said: "Whatever other reasons have been given by anti-removal witnesses, the real ground of their opposition was competition. It is only necessary to look at Ireland's attitude during the war in regard to the grain to appreciate the Irish desire to come to our assistance now about cattle."

DESTROYED BY FIRE.

Prince Rupert, June 22.—(Canadian Press)—The freezing plant in the meat warehouse of Seely & Dodson at Smithers was destroyed by fire to-day.

ALLIED PREMIERS' DECISION AWAITED

Germans Not Withdrawing in Silesian Zone

Paris, June 22.—The French Government has received from General Lerond, president of the inter-Allied Silesian Commission, a report stating that General Heffer, commanding the German irregular troops in Upper Silesia, refuses flatly to evacuate his part of the proposed neutral zone to be drawn between the Poles and the Germans. The Poles have in obedience to the orders of the Commission, withdrawn to the line laid down. Reports from Oppeln state that the German troops held the following towns within the so-called neutral zone: Wysoka, Lemnitz, Charlottenthal, Zembowitz, Schimowitz, Mischlin, Karmarow, Kadulb, Grodziszke, Rosimierz, Brawa, Nenna, Babitz, Narkowicz and Olasz.

In Berlin. The French Ambassador at Berlin makes almost daily calls at the German Foreign Office to lay before the German Government the reports the French receive showing the stubbornness of General Heffer and insisting that Berlin take action. However, it is the general belief here that the situation will remain about as it is until the inter-Allied conference takes place next month. The Allied Commission at Oppeln has been asked anew to try and agree on a boundary, but even if the Commission agrees its action must be approved by the Allied Premiers.

In a Quandary. The French are in somewhat of a quandary over the Silesian situation. Extreme nationalists think Premier Briand should threaten Berlin with occupation of the Ruhr region if Heffer is not recalled. However, M. Briand places great hope in the Wirth Government's strengthening itself and carrying out its reparations promises. Were the threat of occupation of the region made at this time it is

realized it might cause the fall of Wirth and endless difficulties with the succeeding Berlin Government. It is recognized here that Wirth's slowness in acting with regard to Heffer is a step to the right, which frowns upon his reparations programme, and it is the hope of Briand that continued pressure may produce the recall of Heffer if it wishes.

However, Briand, being a cautious man, seeks to exhaust all other possibilities before taking military action because he believes the Wirth Government, which is showing itself amenable in reparations matters, might thereby tumble, and he seeks to give Wirth every chance to make good. But that does not mean the abandonment of the French position that Poland should get the larger part of the Silesian industrial region.

DISARMAMENT.

Thinking people throughout the world will designate the speech which the Prime Minister of South Africa delivered before the Premiers of the British Empire yesterday as an epic on the subject of disarmament. General Smuts did not resort to anything approaching sentimental cant. His humanitarian instincts and his desire for peace are too well known to require any form of advertisement. From the brief extracts of his remarks which have reached this country it is obvious that he confined himself to the financial aspects of the armament race and the inevitable condition into which the world would descend through the perpetuation of naval rivalries. No better analysis of the dangers which confront the nations could have been provided than the mental picture which he presented to the Conference in the following terms:

"If we go forward into the future staggering under a load of military and naval armaments while our competitors in Central Europe are free from the incubus of great armies we shall be severely handicapped."

Here is the case in a nutshell. The world simply cannot go on paying the bills which are incurred by the maintenance of large armies and navies. General Smuts realizes that if the Allied nations persist in the upkeep of huge fighting organizations in spite of a complete absence of cause it will not be long before they will be compelled to repudiate their own indebtedness to one another and range themselves in the category of a defeated and not a victorious alliance. "There would be no help for it."

While the parallel may be somewhat defective by reason of the fact that Germany has refused to resort to anything approaching direct taxation of her people, it is true that citizens of this country are paying something like six times more per capita into the national treasury than are the people of the defeated nation. In addition to this absolute condition in this Dominion and throughout the British Empire, not to mention the oppressive burden which Great Britain's continental Allies are attempting to carry, it must be remembered that Germany is getting all the advantage of the exchange situation. There lies the point to the argument advanced by General Smuts. Stripped of all its frills it means that the Allied nations are struggling to preserve the fruits of victory under the costly strain of a system for whose destruction they banded themselves together in 1914. As far as the protection of the British Empire is concerned General Smuts struck the right note when he declared that there were "no military aims to serve, no militaristic ideals, and it should be the main, in fact the only, object of British policy to secure real peace for the Empire and the world generally."

In other words the world must curtail its expenditures; and the biggest item of cost in practically every country is that which goes by the name of defence. Germany's military and naval organization was a challenge to the world. She took no pains to obscure her object. But from a gigantic armed menace she has been reduced to impotence. She has an army of one hundred thousand—a glorified police force. Here is progress. Must it stop at that? Is the world content to leave this tremendous economic advantage with Germany alone? Or will the leading nations follow the advice of General Smuts and build up a real defence—international solvency?

ROYALTY IN IRELAND.

Under what may be correctly described as the happiest auspices, the King and Queen opened the Parliament of North-

ern Ireland to-day. Not a single hitch took place to mar the proceedings. His Majesty is reported to have read his speech in a clear voice and without trace of any more emotion than would be discernible at the annual event which takes place at Westminster. His remarks were couched in terms adequately befitting the epochal nature of the occasion. But it was typical of British parliamentary usage that the King's address betrayed no trace of patronage. The event appears to have been treated with that refreshing sincerity which symbolizes the release of the child from the apron strings of the parent. No such significant proceeding could have passed without reference to the tragic contrast which Ireland's condition presents at the present time. Whether the King's expression of hope that the rest of the country will see the error of its ways and make possible such a ceremony in the South is highly problematical. Whatever may be in store for Ulster, what- ever may be the sequel in the South, the fact remains that to-day's event opens a new and important chapter in Irish history.

THE FOOTBALLERS.

With the opportunity that already has been presented to them the visiting footballers from the Old Land will have discovered that the capital city of the Province of British Columbia lives up to the sporting traditions of the British race. They will have seen for themselves that it omits nothing from the sporting calendar. On account of these very obvious facts they will feel just as much in their element on the Pacific Coast as they do where the football match is regarded as almost as important an item in the regular round as the fulfilment of the daily task at the bench or in the office. Victoria welcomes them the more warmly because they come from the other side of the Atlantic and because they represent the height of a sportsman's ambition in a branch of recreational exercise which is essentially a British institution.

THE PARLOR BOLSHIEV.

If the parlor Bolshevnik could pay a visit of inspection to Soviet Russia at the present time he would be horrified to discover the extent to which the Marxian doctrine has been re-fashioned to meet the ever-changing humor of its proponents in Moscow. But until he takes the trouble to examine the confessions which emanate from Soviet headquarters from time to time he may be expected to turn up at such meetings as those which he succeeded in disturbing in Victoria and Vancouver when the President of the Trades and Labor Council of Canada visited the coast recently. And while he may have cause to take some of the news which reaches this country from a number of sources alleged to be in touch with the Russian dictatorship with a large grain of salt he must recognize the statements from Premier Lenin himself.

At this stage of Russia's peculiar evolutionary process it is interesting to observe just how much of the communistic system remains in the actual area which set out to demonstrate to the world that capitalism had received its solar plexus. In the first place how does the parlor Bolshevnik regard the virtual overthrow of the communistic wage basis? Or does he know that the attitude of the peasantry—the illiterate masses of Russia and the finest possible soil for autocratic exploitation—has compelled Messrs. Lenin and Company to restore the original free trade principle? What is the position to-day? Only a short while since the state took the whole of the produce. It has now agreed to take only one-third and to permit the sale of the rest in the open market. Here is a sixty-six and two-thirds breakdown. In the third place does the parlor Bolshevnik know that Russian factories are back in the hands of private owners? Does he know that manufacturing processes are being resumed and that the workmen are being paid on the principle of "payment by results"—a principle, by the way, now advocated by the official Soviet press? In the third place does the parlor Bolshevnik understand the significance of concessions to foreigners? Does he know that four or five British firms

already have gone into Russia on manufacturing enterprises and have taken advantage of the Soviet concessions in respect of sixty-year leases? Does the parlor Bolshevnik recognize in this anything akin to a practical application of Marxism? In the fourth place has he paused to analyze the meaning of the Soviet trade missions? Is he not convinced that Leonid Krassin's role itself is a confession that Russia is a failure as a communistic experiment? If those gentlemen in Victoria and elsewhere who get wildly excited and rave about the marvels of the Soviet system of Government will ponder over the statements of Lenin himself in conjunction with the important modifications which he has announced from time to time and to which we have referred they ought to be able to understand that Trotsky's world fight against capitalism is nothing short of blatant rot. Six months from now Sovietism in Russia will be merely a name given to something which will be as far from Marxism as the economic processes of the countries whose capitalists are being invited to invest and flourish in Russia.

NOTE AND COMMENT

Admiral Sims is back home again. Now for the examination and the admonition!

The Secretary of the Miners' Federation of Great Britain says the Government is playing an unhappy part in the crisis. Nobody seems to be displaying a spirit of jubilation.

According to the secretary of the Council of the American Association for the recognition of the "Irish Republic" two submarines flying the "Irish Republican" flag maintain a regular passenger service between the United States and Ireland. Louis de Rougemont died in London several days ago; he has apparently got a successor.

OTHER PAPERS' VIEWS

BE AN OPTIMIST

(From The Toronto Telegram.)
Be an optimist! Anyone can smile and see a great future for Canada when prices are jumping, every one is prosperous and we have a fresh supply of millionaires for breakfast every morning.

It takes a different brand of confidence to smile when prices drop, the dollar looms up as if seen through a magnifying glass, and the breakfast food has changed from millionaires to bankrupts.
But from all over Canada come reports that indicate a bumper crop. The starvation that stares some countries in the face gives the Dominion a wide berth. There is work for everyone who is not too proud or delicate to work on the land.
And all the while Canada's national resources are increasing in value. There is gold in the Northland, oil in the Arctic circle, and billions of tons of coal waiting to be mined in the Western Provinces.
It is a period of universal poverty. The world is strewn with bankrupt nations. And Canada looms up among them as one of the few nations—if she is a nation—that can look to the future with a full stomach and a satisfied smile.
Be an optimist!

STUDENTS CHEATED

Eight of Them Are Caught, During
Examinations at Varsity and
Expelled.

Toronto, June 22.—In connection with the irregularities at the examinations of the University of Toronto the Caput announces that four students have been expelled for impersonation; one student has been expelled because of his expulsion from the College of the University in which he was registered; three students have been expelled because they secured a copy of the paper on which they should have written, and the excuse of writing on another subject just left the University Hall, completed the writing of the paper elsewhere, and in the confusion at the close of the period of examination submitted their answers to the presiding officer.

The expelled students are debarred from registration in any faculty or department of the University of Toronto, and other Canadian universities will be notified.

Five other students have had their exam results cancelled, and are suspended from one to two years. One of these denied irregularities until they were proven.
The Caput has given careful attention to the state of affairs which has thus suddenly emerged, says the statement. "It is in part due to the large numbers and the impossibility, caused by lack of space, of having one seat assigned permanently to each student. But the Caput is taking steps to introduce some changes which it is hoped may reduce the possibilities of collusion. The Caput is convinced that the overwhelming sentiment of the students in colleges and faculties is thoroughly honorable, and that the co-operation of the students may be expected to prevent any recurrence of such irregularities."

Will Hold Dance—A dance under the auspices of the "V. Y." club will be held in the Orange Hall to-morrow night, the time and other arrangements being in the hands of the regular committee in charge.

S. P. C. A. Is Active—In the S. P. C. A. report for June much activity is mentioned including several cases dealt with in up-land centres. The totals for cases dealt with include: Horses 7, dogs 5, cats 8, fish 1, bull 1; while court cases numbered 2, with convictions in either case. Markets and livestock sales were visited. The committee met on Tuesday last and considered a number of matters, including cruelty to animals in moving pictures, and the laying of poison on open land. A reward of \$25 is offered for information leading to conviction in connection with poisoning. The committee also considered the licensing of cats, the old horse traffic in England, the duties of its inspector and financial needs. Inspector Maurice presented his monthly report.

IS PRODUCER OF "DANAE"

MAJOR L. BULLOCK-WEBSTER

made his last public appearance at the Royal Victoria Theatre, in "Hello, Victoria," which he stage-managed for Mrs. John Hope. He is here shown as he then appeared, as Harrison Crockett, the millionaire lover, in the sketch "A Marriage of Convenience." Major Bullock-Webster is the producer of the Pastoral play, "Danae" or "The Birth of Perseus," to be given here on June 27, 28 and 29.

The Producer

Major Llewellyn Bullock-Webster was born in Wales. He combines the qualities of musician and actor, and is an Associate of the Royal College of Music. When quite young he obtained an excellent knowledge of stage technique, having on several occasions been engaged as property man and stage carpenter in order to gain experience, thus making him qualified as stage manager and producer. He has studied also at the school for dancing under the well-known and dreaded ballerina, Madame Sismondi. The Major first made

his appearance on the stage in 1900 at the Old Globe Theatre, London, and afterwards served an apprenticeship to the stage in the chorus of many London productions. In America he played in George Kirley's "Chiselling" company, and played also in Augustus Moore's "La Toleda." He has appeared also in "Broncho Bill" at the Palace, the Royal and at other London music halls. With George Dance he played Harry Gordon in the No. 1 "Girl From Kay's," and has played in "Orchid" company and Norman Pople in "Mr. Pople of Ippleton" company.

CHINESE WIFE TO REMAIN IN B. C.

Vancouver, June 22.—Lum Lun, restaurant proprietor, 214 Pender Street East, and his young Chinese bride, Jew Shee, are rejecting to-day following the decision of Mr. Justice Morrison prohibiting the latter's deportation.

They were married December 12 last year in the province of Sun Wai, the ceremony being performed in accordance with custom of that part of China. The solemnity consisted of the exchange of certificates

between the parents of bride and groom, reciting the respective family histories for three generations.

When Jew Shee arrived here April 18 on the liner Empress of Asia she was forbidden a landing and was told the evidence of her marriage was not sufficient to satisfy the laws of Canada.

A board of inquiry made an investigation and ordered her to return to China on the ground she was an unskilled laborer. Application was then made to the Supreme Court by R. L. Maitland, as counsel for Jew Shee, for a writ of habeas corpus. This was obtained from Mr. Justice Macdonald and as a result Jew Shee's

Whipping Forbidden in Pittsburg if Pupil Refuses to Take It.

Pittsfield, Mass., June 22.—The use by school teachers of lengths of rubber hose, straps and whips to discipline school children is ordered discontinued in a bulletin issued by Superintendent of Schools John G. Complaints concerning the form of corporal punishment used by some teachers was given as the reason for the issuance of the order. "If a pupil refuses to take his whipping send

RUBY

There seems to be no reference of the first appearance of jewels as feminine names. Neither the Bible nor early history shows evidence of this tendency to name women after gems. Indeed, etymologists do not recognize Ruby and her sister names as names at all and they are not listed in the lists of common names.
Ruby has many equivalents in Sanskrit and among the Hindus who regarded the gem as the king of precious stones, but none of them are capable of usage as a proper name. Undoubtedly, Ruby was first bestowed upon a child with the idea of likening it to the glowing, glowing, flame-hearted gem. It may even be that some superstitious mother believed that she would confer upon her babe the heritage of the ruby which is wealth, power and the adulation of fellow men.
The name made its first appearance in England where it was favorite with music hall actresses. Its advent in this country was less spectacular but it has never ceased to be a popular stage name. The real gem, for which it stands, must have given it popularity, for there is nothing striking in either its history or its prevalence.
Ruby's tallmantle-stone is of course the one which she personifies. If old legend be correct, she will be sleeping among women in possessing all the furthermost benefits of this world and will furthermore be protected from disease and accident. Thursday is her lucky day and 1, 3, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39, 41, 43, 45, 47, 49, 51, 53, 55, 57, 59, 61, 63, 65, 67, 69, 71, 73, 75, 77, 79, 81, 83, 85, 87, 89, 91, 93, 95, 97, 99, are her lucky numbers.

Social Personal

Miss Mary Tolson, one of the popular brides-elect of the present month, was the raison d'être of a delightful miscellaneous shower this afternoon at the home of Mrs. Edward H. King, Harbinger Avenue. The tea table was unusually attractive and appropriate in its decorations. A dainty Kewpie bride in regulation white satin wedding gown made in train, complete to bridal veil and attended by two diminutive bridesmaids in pink and mauve respectively, was shown proceeding up an aisle banked with sweet peas, while sweet peas comprised the main floral decorations of the table. The dolls were dressed by Miss Mabel Rhodes a close friend of the guest of honor. Mrs. E. H. King presided at the tea table. During the afternoon Master Teddy Keith-Wilson drew a floral conveyance containing many lovely gifts into the room and presented it to Miss Tolson. The guests included Mrs. Hammond King, Mrs. J. Keith-Wilson, Mrs. Scott-Ritchie, Mrs. Howell, Mrs. F. H. Mayhew, Mrs. G. D. Williams, Mrs. W. R. Brenton, Mrs. P. N. A. Smith, Mrs. E. Matthews, Miss B. Wolfenden, Miss Margery Meredith, Miss Jean Harvey, Miss Beth Harvey, Miss Yvonne Cox, Miss Edith Protheroe, the Misses Rant, Miss Habel Rhodes, the Misses Dorothy, Agnes and Marjorie Stuart-Robertson, the Misses Jocelyn and Eileen Innes and Miss Dora Pease.

Mr. W. G. McLaren, of Chicago, who has been spending the past two weeks with his mother, Mrs. J. R. McLaren, left yesterday for the East. In speaking of the natural beauty of Vancouver Island Mr. McLaren stated that he was prepared to see wonderful scenery, but the realization had far exceeded his anticipation. Mr. McLaren has gone away full of the idea that some day he will return to stay.

Mrs. David Miller returned on Monday morning from the East, where she attended the National Chapter, I. O. D. E., as delegate from the Municipal Chapter of Victoria, afterwards going to Toronto for the closing exercises at Branksome Hall, where her daughter, Mona, has been a student for the past term. Mrs. Miller was accompanied home by Miss Mona Miller.

Professor Ellis, of Vancouver, who is now holding meetings at St. Paul's Presbyterian Church nightly, will be the guest of the club this week, and will give a short address. Supper will be served at 8:15 o'clock, to which all business girls are invited. Tickets can now be obtained for the annual picnic, which will be held at Finlayson Arm on July 1, the girls travelling by trolley.

Mr. and Mrs. J. C. Ranns, of Esquimalt, announced the engagement of their eldest daughter, Rose, to Mr. Archibald Henderson, of Victoria, and their youngest daughter, Alice, to Mr.

Chester Middleditch, of Calgary. The double wedding will take place at St. Paul's Church, Esquimalt, on June 28 at 7 o'clock. Afterwards a reception will be held at the Sailors' Club, to which intimate friends of the family are invited.

The following guests are registered at the Dominion Hotel: M. McLean, New Denver; A. V. Carlson, H. E. Le Bruns, of Nakusp; Leedham, Revelstoke; W. J. Cook, of Kirkpatrick; J. Kidd, of Calgary.

At the Emmanuel Baptist Church on June 21 the marriage was solemnized by the Rev. William Stevenson, of Alexander, Menzies and Minnie Beatrice Hipple, both of Chilliwack. After a honeymoon in the coast cities, Mr. and Mrs. Menzies will make their home at Chilliwack.

Miss Gladys Wanless and Miss Winter, of Toronto, who have been visiting Mrs. R. S. McCaw, 2099 Granite Street, left Sunday afternoon for the East.

Mrs. R. D. Cosson, of Vancouver, is in the city for a few days as the guest of Mrs. O. F. Anderson, 2729 Roseberry Street.

Theophilus Michell, a Masonic delegate, of Vancouver, is visiting his parents, Ernest S. Michell, Earle Street.

Mr. and Mrs. John Shaw and Mr. and Mrs. W. E. Thomson, Nanaimo, are guests at the Princess Hotel.

Miss Stella Francis, of the Jubilee Hospital staff, is spending a vacation in Vancouver visiting her parents, Mr. and Mrs. Byron Francis.

FEDERATED WOMEN'S INSTITUTE MEETING

Bi-ennial Convention in Session at Calgary; Mrs. Watt Speaks

Edmonton, Alta., June 22.—With representatives from practically every province in Canada, the second bi-ennial convention of the Federation of Women's Institutes of Canada, opened in Edmonton on Monday. Magistrate Emily Murphy, the president, in her address, advocating the inauguration of a women's division of the federal department of agriculture, similar in scope and management and to complement the women's division of the department of immigration and colonization.

In each province the women's institutes are the women's division of the provincial department and through them is disbursed a certain portion of the \$10,000,000 set aside by the Dominion government under the Agricultural Instructions Act to be used for education of women in agricultural arts.

Therefore, logically and properly, the women's institutes should have their headquarters at Ottawa.

"Every day such an arrangement is delayed, means a very vital loss to the agricultural industry of Canada," concluded the speaker.

Lady Byng a President.
Mrs. Alfred Watt, M. B. E., announced that the wife of the new governor-general of Canada is a president of a women's institute in England, Harp-Le-Soken, and a member of the Essex County executive.

As the women's institute is the only Canadian organization to which Lady Byng belongs at present, Mrs. Watt moved, seconded by Mrs. William Todd, of Orillia, that a message of greeting and welcome be sent to her from the Federated Women's Institute of Canada.

Mrs. Sanford, president of the National Council, brought greetings from that organization.

Dean Howes, of the University of Alberta, gave the address of welcome, which was replied to by Mrs. David Watt, of Birtle, Man.

Miss Isabel Nobel, president of the Alberta Women's Institute, extended greetings on behalf of Alberta.

Members of Executive.
The members of the national executive present are: Mrs. William Todd, first vice-president of the Federated Women's Institutes and president of the Ontario Federation; recording secretary, Mrs. W. F. Cameron, Davidson, Sask.; corresponding secretary, Mrs. A. H. Rogers, Fort Saskatchewan; treasurer, Miss Eliza Campbell, Fredericton, N. B.; secretary-treasurer Ontario Federation, Mrs. C. McCoun, Campbellford; recording secretary Ontario Federation, Mrs. B. O. Allen, Fort William; institute technique, Miss Annie Playfair, of Winnipeg; publicity convener, Mrs. J. F. Price, Calgary.

A woman on her first railway trip noticed the communication cord overhead, so she gave it a pull with her umbrella. The whistle sounded, the brakes were put on, and the train began to slacken its speed.

MRS. NICHOL TO ENTERTAIN I.O.D.E.

Mrs. David Miller to Give National Report to Municipal Chapter

Mrs. Walter C. Nichol, wife of the Lieutenant-Governor, has kindly invited the officers and members of the Municipal Chapter, I. O. D. E., life members and convener of standing committees of the Municipal Chapter, to a reception to be held at Government House on Thursday afternoon, June 30, at 3:30. The principal feature of the afternoon will be the presentation by Mrs. David Miller of her report as official Municipal delegate to the annual meeting of the National Chapter held in Calgary recently.

FOR CHILDREN THE SANDMAN STORY FOR TONIGHT

THE GOBLINS' JOKE—Part III.

As the Goblins climbed up his legs trying to reach the cap, Elmo shook himself free and held it high above his head.
"Keep quiet all of you," he said. "You have made enough trouble now and someone must help you out or you will be in more than ever."
"Only one of you little fellows can have the cap, but if you will agree which one it shall be I will give him the cap."
"Don't you see that you are wasting time and as soon as one of your hands puts on the cap he can help the others, for I judge you Goblins can wash things right once the cap is on your head."
All the Goblins began to chatter and then one stepped out from the band and said he was the one to put on the cap and find the others.
Elmo gave him the little red cap and it was on his head like a flash, and with a funny cry of "spac-roops" up he went through the top of the brown cave out of sight.
In a few minutes back he came sliding down the side of the cave with caps under his arms and in his little pockets and on his head in his mouth.
When each Goblin had on a little red cap, the Gnomes, who had not spoken since Elmo found the first

He was seated at a table.

cap, gathered about him and one said: "Tell them not to play any more tricks or we shall not be able to start the roots growing right."
"The Goblins were not ungrateful for what Elmo had done and one of them asked him in what way they could repay his kindness.
"Do not play any more tricks on the Gnomes and on yourself either, for you see the trick was as much on you as on your friends, the Gnomes," said Elmo.
"But for yourself," said the Goblin, "have you no wish you would like granted?"
"If you and the Gnomes attend to your work I shall have a nice garden and perhaps my uncle will treat me more kindly and give me more to eat," said Elmo.
"Are you hungry now?" asked the Goblin.
"For the first time since he first saw the little brown men at work in the cellar, Elmo remembered that he was very hungry. "Yes, I am hungry," he said. "Right now I could eat a whole roast of beef myself."
"Come," said the Goblin: "you shall try it."

Elmo found himself in Goblin Land where it was green, even the rocks, and before he could think more about the strange happiness, he was seated at a table loaded with all sorts of good things to eat, and in the centre a "roast" of beef which Elmo knew he could never eat in spite of his boast that he could.

How long he had been gone from his uncle's house he did not know, but when he finished eating Elmo

suddenly found himself working in his garden and it was Springtime. That year his garden was so wonderful that his uncle gave him a piece of land to cultivate for himself, and the vegetables were so fine that he never lacked customers.

Of course, he often thought of the strange little men who said they would help him. Though he never saw one he wondered sometimes if he did not catch a glimpse of a tiny red cap dodging among the rocks.

But when he looked closer he would find only a tiny red flower and sometimes he thought he saw a little brown man frolicking along the ground in the woods, but it always turned out to be a brown leaf when Elmo reached the place where he thought he saw the Gnome.

"SPINSTERS' CONVENTION" AT CONGREGATIONAL CHURCH WAS SUCCESS

The schoolroom of First Congregational Church was packed to the doors last night when the "Three M. Society" presented the one-act comedy, "The Spinsters' Convention." Over two hundred people were in the audience and the entertainment was such a decided success that it will likely be repeated at a later date.

The sketch opened with the convention in session, Mrs. Spence in the chair, Miss Muriel Kelly as secretary, and Miss Dorothy Kerr as treasurer.

The doings of the convention kept the audience in continual roars of laughter. Miss W. Scowcroft and Mrs. Birkett entered into a heated debate on dress reform; Mrs. Bert Lock and Mrs. R. Smith acted remarkably well; Miss Reta Hicks recited, and the convention sang several amusing songs.

At the close of the regular meeting of the convention "Professor Make-over" arrived with his "remodeloscope," and proceeded to make-over the whole gathering of "spinsters." The "made-over" on emerging from the "machine" took part in the programme. Mrs. Patterson and Miss Elsie Hole sang solo; Miss M. Patterson sang and Miss Dora Curtis played a piano solo.

"Yorkie," the ventriloquist, and "Pansy," the comedian, were very well received. Miss Reta Hicks gave a charming fairy dance.

Mrs. Curtis came out of the "remodeloscope" unchanged, but her dog "Hector" came out as sausage rolls. W. Erickson acted the part of Professor Make-over, being assisted by A. Crawshaw.

The following took part in the sketch: Mesdames Curtis, Spence, Smith, H. T. Lock, Patterson, O'Leary, Birkett, Misses Marie, Sjolander, A. Sjolander, D. Kerr, N. Kerr, M. Kelly, S. Kelly, W. Scowcroft, M. Simpson, M. Girling, G. Shepherd, Reta Hicks, Messrs. Wm. Erickson, A. Crawshaw.

The following assisted in the entertainment: "Yorkie," ventriloquist; "Ted" Blair, comedian; Miss Elsie Hole, soloist; Mrs. Patterson, soloist; Miss D. Curtis, piano solo; Miss M. Patterson, soloist; Miss Reta Hicks, fairy dance.

Owen Sound will hold a Community Dance on the main street next Friday night.

REVEALS STORY OF NIGHT MURDER

Alex Paulson's Confession of
Killing of William Salsbury,
Junior

In connection with the story of the murder of William Salsbury, Jr., by hold-up men on Georgia Street, Vancouver, on the night of April 12, the unraveling of which has been made easier by the confession of Alex Paulson, the companion of Robinson, the alleged slayer, great interest is being taken by Victorians in the court proceedings in Vancouver owing to the fact that Mr. Salsbury was well known here, where his parents reside.

Paulson's confession reads as follows: On the night we killed Salsbury, Slim saw me on Powell Street and told me, "Will you go with me?" He said, "Will you go with me to a store on Hastings Street to hold it up?" I said, "I won't go on this place." He said, "We will go any place at all. You come with me," and says going around Union Street he couldn't see anybody so we wouldn't try it. After he said, "Let's go to the other side of Vancouver Hotel," and we walked along Georgia Street West and we seen a mounted policeman come along and he gets close to us and I said, "Don't hold up this man, he is a mounted police." Then another man came along right on the order and I told him, "Don't touch this fellow because he's kind of old."

Then this big fellow Salsbury came along. Slim said, "I'm going to hold this fellow up." I was about fifteen feet away and I saw Salsbury with his umbrella as if he was trying to hit Slim. Slim said, "Come on." Salsbury would not do it and Slim shot him and as soon as I heard the shot I started to run and when I started to run I heard Salsbury holler twice.

I run towards the corner of the third street from Granville and I slipped and fell and Slim was running about twenty feet behind me and he said, "I will go in the back alley." I don't say nothing but just kept going on the street as far as Hastings and I went round the post-office and the entrance to the street and away on Powell Street and went into Japanese poolroom and saw this fellow Simpson, and he said, "Shave your moustache."

I told him what we had done. Then went to Simpson's room and shave moustache and after that went on Carroll Street to the Wonder Lunch and had something to eat and came back to Harry's bar and I saw Slim sitting on a bench there. I didn't talk to him that time as he told me to keep away from him. Slim told me he had thrown away his revolver and raincoat. I asked him where he had ditched them as he said he had thrown them in some wagon. I told him that I had ditched my gun in Union Street because we did not need two guns. I did not tell him that I had ditched my gun until after Salsbury was shot and I saw him in Harry's bar. I got a fellow, French fellow, who has now gone east and whose name I did not know, to go and get my gun. Then after I got it I never carried it but gave it to Simpson. Slim told me the next day that Salsbury was killed and he said it was a good job, because "if he was only wounded there would be trouble because he will recognize me." After that Slim went east with his partner, named Jack Dale. I saw him once after he came back and the next day he got arrested.

FINE PROGRAMME AT CLOSING EXERCISES OF ORIENTAL HOME

Avoid indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please and reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five-grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthily without need of peppin pills or artificial digestants.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate, and the Bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

NEWS AND NOTES OF THE MINES

A Golden Future

Col. J. T. Crabb, New York, executive vice-president of the Granby Consolidated Mining, Smelter and Power Co., of Ansox, B. C., who was a visitor in Prince Rupert last week, declared that all the mining that had yet been done in British Columbia could not even be described as a scratch on the surface, in view of the widespread and extensive mineral deposits in that wonderful section of Canada. The Colonel is enthusiastic regarding possibilities and is convinced that a golden future is vouchsafed the province.

"Copper is not the only mineral in British Columbia," the Colonel said, "thought it is rich in that mineral it is quite rich in gold and silver and many other valuable minerals, including iron. If much has been taken out of the province, it is as nothing to what remains. Why, the country has not been scratched. It is a very rich country. I can only realize that for this Canada of yours there is a wonderful future."

The cup will probably be contested for yearly, to be held by the boy holding the highest points for training.

"SO LONG PETE" BUSY

Sneak Thief in East Leaves His Card
After Every Job.

New York, June 22.—"So Long Pete," an elusive sneak thief, has the Newark police on their toes. He enters a house by means of a key and, after ransacking the rooms, takes valuables which are easy to carry and then departs, leaving the following note: "So long, Pete."

His first appearance was reported to the police Friday by Mrs. Sidney Wood. When she returned from a shopping tour she found her home in a top-to-turvey condition. On a table she found the note.

Friday night the thief shifted his operations a few miles to the south, entering the home of Alfred J. Habig. A child's bank was broken open, yielding \$4.35. Jewelry valued at \$52 also was taken. On a dresser Mr. Habig found at note, which read: "Job No. 2. So long, Pete."

DR. J. C. FERGUSON
RETURNING TO EAST

Financial Adviser of Chinese Republic Passenger on Empress

When the C. P. O. S. liner Empress of Asia leaves the Outer Dock for Eastern ports on Friday morning she will carry 550 passengers, 250 in the first class, 40 in the second class, 40 third class and 500 in the steerage.

Among the distinguished passengers returning to the Far East will be Dr. John Calvin Ferguson, B. A., Ph. D., financial adviser to the Government of China, and one of the most remarkable and able Occidental men who ever entered the service of the Chinese nation.

His first appearance in Chinese affairs was in 1888, when but twenty-two years of age, his appointment as the President of the Nanking University being but the first step in a dazzling rise in the trust and honor of the Chinese nation.

After serving the Viceroy of Nanking and Wuchang as Councilor for more than twelve years, Dr. Ferguson became the financial adviser to the present Republic of China.

Being credited with much of the success with which Chinese finances have been brought through severe internal and external troubles, too difficult for many of the most prominent banking and financial men of Europe and the United States to control and advise upon.

Canada has a peculiar interest in the success with which Dr. Ferguson's career in China has been marked, as he received his early education in Belleville Ontario.

"Well, my dear," said he, as he was dressing, "I s'pose you were right when you told me last night that there were burglars in the house."

"Why?"

"Because all the money that was in my pockets when I went to bed is gone."

"Well, if you'd been brave and got up and shot the wretch you'd have had your money this morning."

"Possibly; but then I should have been a widower."

She gave him back half the money.

LATE ARRIVAL OF
FUSHIMI CAUSES
LOSS OF HOLIDAY

Dominion Officials at Customs and Immigration Offices Will Lose Vacation

The N. Y. K. liner Suwa Maru will leave the Outer Wharves for Oriental ports on Friday afternoon, taking a full cargo, but only a light passenger list.

Conversely the Fushimi Maru, which has been delayed and is now due to arrive on July 1, is bringing a light cargo manifest, but is reported to have every cabin taken, the passenger traffic from the Orient being far in excess of that outward bound from this side.

There is considerable disappointment in evidence among customs and shipping men over the delay in the arrival of the Fushimi, the expected Dominion holiday becoming one of more than ordinary hard work for the officials.

MAY NOT BE ALLOWED
RE-ENTRY TO STATES

Alien Residents in United States Limited to Short Homeland Visits

Owing to the number of inquiries received by the steamship companies as to the rights of aliens residing in the United States under the new Immigration Restriction Law, should they decide to visit Europe, a statement has been issued by the White Star Line for the information of its agents and patrons as follows:

"Alien residents of the United States may make temporary visits abroad six months in duration. Those remaining out of the United States more than six months will be presumed to have abandoned this country as their permanent home, but may be re-admitted to the United States on the production of sufficient evidence to the immigration authorities for the immigration authorities to be satisfied that the alien has not abandoned the United States."

For the present, the passenger's passport will serve to prove that he or she has sailed from the United States.

Advertisements should be like the styles in skirts; short enough to be attractive, but long enough to cover the subject.

Three U. S. Shipping Board Passenger Vessels in Seattle Waters Shortly

With the arrival of the Shipping Board steamer "Keystone State" at Seattle this morning, the expected appearance of the "Silver State" on Saturday, and the return of the "Wenatchee" from the Orient on June 23, the Pacific Steamship Company will have in Puget Sound waters three of the five vessels with which they are planning to fight for a share of the Oriental trade of the North Pacific.

The "Silver State" arrived at San Francisco from Hongkong from New York and will sail for Hongkong from Seattle on July 3, thus being the first of the three vessels to get away on a regular schedule.

The "Wenatchee" will have to undergo extensive engineering refitting as a consequence of her experiences with her present oil feed apparatus, and the same replacements will also have to be made upon the "Keystone State."

AGITATION GROWS TO
FREE PANAMA CANAL
TO AMERICAN SHIPS

Indications Strong That Protests of Railroad and Britain Will Be Ignored

Washington, June 21.—(By Canadian Press)—Until now comparative little attention has been given to this session of Congress to the question of free tolls for United States shipping through the Panama Canal. However, the question is looming up and a settlement of it cannot much longer be deferred. The Harding administration and the Republican party in Congress are pledged to free tolls and cannot well dodge the issue. On the other hand, there is a tremendous tide of opposition, and as soon as the discussion over tolls legislation begins in Senate or House, this opposition will be clearly in evidence.

All the information in Washington agrees that every transcontinental railroad in the country is deeply interested and concerned over free tolls. The pressure of the United States which span the continent are already actively at work to try to postpone or completely block legislation. In other words, they insist that tolls shall continue to be charged on U. S. shipping which uses the canal, whether that shipping be on coastwise business or on foreign business. The Canadian transcontinental railroad interests are understood here likewise to view free tolls with apprehension, though they are understood not to be taking any active part in trying to influence legislation. They are believed here to be of the same view as the United States roads as to the general effect on transcontinental lines of free tolls—that the effect thereof would be to expand the Panama Canal trade and tend to cut down the volume of transcontinental railroad business.

The present indications, however, are that Congress is going to provide for free tolls. It will at least provide for free tolls for U. S. vessels which ply their trade between Atlantic or Gulf coast on the one hand and the Pacific coast on the other. It may extend to U. S. shipping in general, in whatever form of trade. The pressure for free tolls is very strong and determined, especially from the Atlantic, Gulf and Pacific coast regions, where it is felt free tolls would enlarge coastwise shipping business and counteract the high railroad rates of which the whole United States is complaining. Republican leaders cannot get away from the free tolls without squarely ignoring their promises and it is generally assumed they will not venture on such a course of scrapping their pledges so early in their reign.

The best informed men in Congress on the subject of railroad rates and transportation problems believe there is just ahead of the United States a large growth in the coastwise shipping business between the Pacific coast ports and the Gulf of Mexico and Eastern ports. Signs of this are visible in many directions. California producers of fruits and vegetables without waiting for free tolls are already planning for enlarging of water traffic. What is true of the California fruit and vegetable interests is true of various interests along the Pacific Coast. While Canadian producing and shipping interests on the Pacific coast and the east coast have not the same interests in free tolls as United States interests, there can be no doubt that Canada will be affected by free tolls and the expansion of canal business materially.

Disregard Foreign Protests. When Congress, early in the Wilson administration provided for tolls on U. S. shipping, there was felt here a great deal of opposition from Great Britain and other maritime nations, though it has since been alleged the opposition was exaggerated. Now, however, such opposition is expected to cut little figure. One reason is the anxiety of the people of the U. S. to build up a merchant marine. Another is the feeling of the public that railroad rates are exorbitant and burdensome and water transportation must be encouraged.

COUNSEL WILL SUBMIT
ARGUMENT IN WRITING

The action of Clark vs. the Harbor Marine et al, which was set for hearing in the Supreme Court to-day, did not appear. It has been decided, with the consent of Mr. Justice Clement, that the counsel will submit written arguments. The action is one for damages claimed under an agreement alleged to have existed between James Stewart Clark, a naval architect, and the Harbor Marine Company and the other co-defendants in the suit in connection with the employment of the plaintiff by the defendant company in the building of the two steel ships, the Canadian Winner and the Canadian Traveler.

TO UNITED STATES

New Immigration Restrictions Have Wide Application; Few Exemptions Made

Vice-Consul Newcomb of the United States consulate, this morning stated that restrictions on immigration to the United States, effective since June 3 with the enforcement of the Act of Congress of May 19, 1921, limiting the number of aliens eligible to entry, provide as follows:

"That the number of aliens of any nationality who may be admitted under the Immigration Laws of the United States in any fiscal year shall be limited to 3 per centum of the number of foreign-born persons of such nationality resident in the United States, as determined by the United States census of 1910."

"This provision shall not apply to the following, and they shall not be counted in reckoning of any of the percentage limits provided in this Act:

"Government officials, their families, attendants, servants, and employees; aliens in continuous transit through the United States; aliens lawfully admitted to the United States who later go in transit from one part of the United States to another; the transient crew of a ship; aliens visiting the United States as tourists or temporarily for business or pleasure; aliens from countries immigration from which is regulated in accordance with treaties or agreements relating solely to immigration; aliens from the so-called Asiatic barred zone as described in Section 2 of the Immigration Act of 1917; and aliens who are children of citizens of the United States."

GIANTESSES OF SEA;
HOW THEY COMPARE

Bismarck, Renamed Majestic, Shows Progress in Ship Design

In the Majestic the International Mercantile Marine Company has the largest ship in the world. If that company obtains the Leviathan, as seems likely, it will have the two finest liners in the world, under the British and American flags, respectively.

How these giants of the sea compare is shown in the following table. The Leviathan is at present equipped as a coal-burner, but may be turned into an oil-burner, as the Majestic will be.

SEATTLE MARINE
ENGINEERS ACCEPT
NEW WAGE SCALE

Agreement With the Shipping Board Ratified

Seattle, June 22.—Seattle local of the Marine Engineers' Beneficial Association has accepted the new scale and working agreement reached recently by national officers of the Association and the Shipping Board officials, when representatives of the San Francisco, Portland, Astoria, Ore., and Seattle locals met to discuss the agreement.

Following the announcement of the Seattle local, representatives of the other organizations present began debate on a proposal to accept the agreement "under protest."

Mariners are notified that the wreck of the coal barge Robert Kerr, near White Rock, north end of Thetis Island, is reported to have slipped into deep water approximately 100 yards southeast of its former position, and is covered by about five feet of water at extreme high tide.

The exact location of this menace to navigation will be published as soon as ascertained. In the meantime mariners are warned to be careful in navigation in this vicinity.

Mariners are herewith notified that a pinnacle has been found on Humphrey Rock, Tribune Channel, opposite Bamber Point, Viscount Island. The pinnacle is covered by six feet of water at low tide, while the Admiralty Chart gives a minimum depth of eighteen feet.

New Chief Arrives.—The new chief of police of Esquimalt, Herbert Dawley, has arrived in the municipality and taken a residence at 525 Admirals Road. Mr. Dawley is well known in Victoria, where he served on the city and provincial police forces for some years. He will take the oath of office shortly, and is now busy getting settled in his new home. Mr. Dawley was accompanied to the municipality by his wife and one child to take up their residence in the Esquimalt township.

AT A MOTHERS MEETING

the wife of a noted New York divine said to her listeners, "Watch carefully your daughter's physical development. Mothers should keep their daughters well informed as to matters pertaining to health, and should see that nature is assisted, if necessary, to perform its offices."

Irregularities and pain are warning symptoms of some trouble, and mothers may depend upon Lydia E. Pinkham's Vegetable Compound to correct them, and restore the system to a healthy, normal condition. (Adv.)

AT A DISADVANTAGE.

"Boxing's all very well," said Mrs. Smith to her son, "but fighting in the street I will not have. Who have you been falling out with this time?" "Billy Jones," replied her son.

"What about?" "Well, we got mad with each other over something."

"How many times," exclaimed his mother, "have I told you, when you are losing your temper, to stop and count a hundred?"

"That's what I did," answered the boy, sullenly, "and that's why I lost. Billy's mother only told him to count fifty."

Chas. Flagg, Stratford, was injured while riding his bicycle when struck by an auto driven by W. Meyers.

BAYS CLIMB HIGHER; CENTRALS GO DOWN

"Baldy" Price's luckless Centrals started to burrow deeper into the cellar by taking a 10-7 beating from the Ward ball-tenners last night.

Young Jeff Bothwell, the Central twirler, had the Ward goats tied right behind him, with the exception of Bentley and Richdale. Bentley not only clouted out a four-base hit, but contributed two three-baggers. Richdale also was smitten with the home-run

Expect Record Crowd At Big Soccer Game

All-Stars Are Ready to Meet Scottish Internationals At Stadium This Evening; Premier Oliver Will Kick Off at 6.30 o'Clock; Fred Oliver Will Referee; Great Game Expected.

Everyone who has a loose dollar this evening will be found inside the Stadium at watch the Scottish Internationals take on the Victoria representative football team and a lot of those folks who can't spare a cartwheel or a greenback will be found lining the fences like a lot of birds looking for something soft. There is no question but that the largest crowd that ever attended a sporting attraction in this city will be present this evening. Approximately 4,000 fans are expected to pay their way in.

The kick-off will be staged at 6.30 o'clock and Hon. John Oliver, Premier of the Province, is going to show the Scotties how to drive a ball. The Premier has been looking over his army of boots lately and is reported to have picked on a very hefty "sabot" with a nice nose on it. After the Premier has performed his distance-kicking the game will start in earnest.

Hope For Something Good.

Everyone expects to see the local boys go down to defeat, but considerable interest is being evinced in the ability of the backs to break up the Scottish attacks and drive them out. Victoria is strong in the back division, and while there may not be many opportunities for the forwards to pounce there will no doubt be many pretty runs.

One great ambition of the locals is to score a goal. So far the Scotties have not been scored on in British Columbia, and only five shots have passed Brownie during the whole tour.

Team Not Announced.

The management of the Scottish team has not made any announcement as to the personnel of the team, but folks will be assured of seeing the famous Andy Wilson in action. Andy's great ambition is to notch three goals in every game. He comes pretty close to doing it on each trip out. Everything is in readiness for the game. The local boys are in prime condition and hope to make the Scottish step fast over the whole distance.

A Tough Proposition. "We're up against a tough proposition, the toughest we've ever encountered," remarked Jimmy Allan, captain of the locals, this morning, "but we're going in with our heads up and do our best. We don't expect a win but we expect a good game."

Fred Oliver will referee the game and H. Pearson and Bob Livingstone will be the line-men.

The local team will line up as follows: Goal, Shrimpton; backs, Whyte and Taylor; half-backs, Muir, Allan (captain), and Munro; forwards, Bridges, Brewster, Petticrew, A. Allan and Totty.

LOOKS AS IF ERTLE WILL BE THIRD MAN

Atlantic City, N. J., June 22.—Harry Ertle, referee of the world's heavyweight championship contest between Jack Dempsey, the titleholder, and Georges Carpentier at Jersey City, July 2, is entirely satisfactory to Dempsey. The champion expressed this opinion to-day.

FOURTEEN HOMERUNS SOCKED YESTERDAY

Terrific Slugging in Major Leagues Continues; Each League Gets Seven

New York, June 22.—Fourteen home runs were divided evenly between the two major leagues yesterday. None was credited to Babe Ruth, who made a single and walked one in nine trips to the plate in the New York-Boston double-header.

Five homers were made in Philadelphia by the Athletics and Washington in a 15-inning contest. The sluggers were Charley and Miller of the Senators, and Galloway, Welsh and Perkins, of the Athletics. The other American League home run hitters were Pennick, of Boston, and Hawks, of New York.

Three Boston National League batsmen made homers against New York: Nicholson, Boeckel and Gowdy. The hitters were hit in the first Chicago-St. Louis game and one in the second. The hitters were: Flack, of the Cubs, and Smith, Hornsby, and Fournier, of St. Louis.

Andy Wilson, of Scots, Is Marvelous Player

St. of Touring Scots Is War Hero With Disabled Arm, and Is Called Greatest Centre Forward in Great Britain

Canada is making more fuss over Andy Wilson, brilliant centre forward of the Scottish soccer team, which will play against the Victoria All-stars at the Stadium this evening, than American baseball fans made over Babe Ruth last Fall, when the Bambino home run fever was at its height.

Wilson is declared by football critics to be the best centre forward the soccer game has ever known. He is a very deceptive player, being fast and as wiggly as an eel.

Greatest Pair of Legs. He has the best trained pair of legs that ever toed a ball down the soccer field. His feet handle the ball as accurately as a baseball player's hands do a baseball.

He shot 15 goals in one match played while he was in the British army. Last season he rose to the height of his popularity in Scotland. Admirers mobbed him as he came on and off the field. He played centre forward for Scotland against England in the last international game.

DUFFY LEWIS SIGNING WITH SALT LAKE TEAM

Salt Lake City, June 22.—The management of the Salt Lake baseball club announced last night that Duffy Lewis, for many years Boston, New York and Washington outfielder, has accepted terms with the local club and that he would leave New York at once for Salt Lake. It was said that Lewis was a free agent.

KNIGHTS HAND OUT VERY BAD DEFEAT

The Conservatives Found New Team Very Thorny Proposition, Losing by 9-5

Amateur League Standing.

Team	P.	W.	L.	Pct.
Elks	5	3	2	.750
Con. Club	5	3	2	.600
Yarrows	4	2	2	.500
Knights	5	2	3	.400

Frank Moore's Politicians received a rude jolt last night at the Stadium when Macfarlane's reorganized Knights of Columbus played rings around the veteran Conservatives and brought home the bacon by a 9 to 5 score, thereby breaking into the winning column for the first time this year and clearly demonstrating that it's going to take some hustling to keep them down in future.

Moore selected "Lefty" Saunders to do the heavy work for the Conservatives and before he finished he certainly found it heavy. He started off in great style by fanning Allen, and this apparently used up all the surplus energy he had saved up for the occasion, as he walked the next man on four straight balls. He then managed to get one in the vicinity of the home plate and Dunn slapped out a single. Brynjolfson and Oatman walked in succession, forcing Turpel. Saunders got another one over and Nobel fled to Newman. He then walked Jones, and Moore forcing in Dunn and Brynjolfson, and just to show the crowd he still had a few bad ones left in his system, he uncorked a wild pitch and Oatman trotted home. McMurray ended the game by gobbling up Davis's grounder and throwing him out at first.

Saunders recovered his control during the real and shoved one over which Allen poked out for a single and after Bill Turpel followed up with another. Moore suddenly realized that Saunders was "stiffer" having an off night or was a warm weather pitcher and chased him to the tall timbers. Newman replaced him and with the exception of the third inning, not away fairly good for the remainder of the game.

Snappy Fielding. Mack's gang showed the fans how the old game should be played by retiring the Conservatives on a single and double plays in the first and second innings, and again spoiled the Politicians' chances by pulling off another fast double in the sixth.

The Conservatives squeezed four runs across in the third after two were out. Murray singled and went to second on Cottet's sacrifice. Coleman fanned. McMurray walked. Murray attempted to steal third and Brynjolfson lost Davis's throw in the sun. Murray scoring. Newman singled, scoring McMurray from second. Moore doubled, scoring Newman. Green singled, scoring McMurray, but was caught at second trying to stretch his hit to a double. They slid another over in the next inning. Dunn threw Potts out. Taddie singled and was forced at second when Murray hit to Nobel. Cottet doubled and Murray scored when Dunn fumbled Coleman's drive. After this Nobel tightened up and was not in trouble during the rest of the game.

Caps Go to Pieces in Ninth and Yakima Wins

Wallace Could Not Hold Crabapples When He Had Six-run Lead, and Handley and Bankhead Made Errors at Critical Times

Yakima, Wash., June 22.—Yakima still retains that ninth-inning punch, as it demonstrated yesterday afternoon when Victoria was well in front with the score standing 13-7 at the end of the sixth inning, and when the ninth-inning blow around the locals were still six runs in the rear. Yakima went after Bob Wallace and drove in six runs with two out and won the game by 15-11.

It was another of those free-hitting, high-scoring games with Victoria having a decided edge until the last inning. The pitchers seemed to have little control of the batters and each team turned in a batting average better than .400.

Washington Out Quickly. Washington started on the mound for Victoria but he was left on a side-switch in the fourth inning when Yakima commenced to hit and scored six runs. Easter went to the mound and held the locals until the eighth, when he stalled a little and Wallace went in to try and save the game. But right then and there the Yaks started getting runs, and they finished up by drubbing Victoria good and plenty. Errors by Handley and Bankhead during the ninth inning allowed Yakima to get their runners around the bases.

Williams, the spit-ball boy, lasted for six innings and then hustled out of the way to let long Russ James ring at his old team-mates. Russ made the Capitals be good.

Victoria Got Lots of Runs. Victoria gathered two runs in the third and another pair in the fourth and overtook Yakima in the fifth by passing the Capitals. They turned in seven runs. The Capitals gathered two more runs in the sixth and then Williams passed from the scene and Ed James hung the zero sign on the visitors.

Victoria batters did some very heavy slugging. Bankhead smacked out three hits, including two triples, while Patton collected three drives, including a triple and a double. Messner had the best batting average of the team, annexing three hits, including two doubles, in four trips to the plate.

The teams play here again this afternoon.

Canadian Footballers Need to Use Heads

So Says Col. Wilson, of Scottish Internationals, Who Thinks Canada Has Plenty of Material — Entertaining Visitors

"We have had a splendid opportunity to look over the football talent you have in Canada. We have travelled across this wonderful country and we have been pitted against the best teams that could be assembled in your larger cities. We have made these observations with a light heart, in fact you have plenty of it, but your players lack what we choose to call brains. Your players must learn the secret of using their heads in the game."

This interesting observation was made last evening by Colonel Wilson, of the Scottish Internationals, when questioned as to his opinion of football as played in Canada.

The Colonel was quite frank in his statement and felt quite sure that by careful handling and coaching the standard of play in this country could be elevated considerably. He looked for some improvement and expected that many teams would profit from a close study of the system employed by the Scots.

The Scots are being royally entertained while in this city. They are quartered at the Empress Hotel.

Last evening the team was the guest of the Scottish societies of this city and the Victoria and District Football Association at a supper, dance and concert at the Caledonian Hall. The programme was of a most interesting nature and thoroughly enjoyed by the footballers. The hosts took part in the dancing until their trainer gave them orders to do a little jog off to their bunks.

This morning the players enjoyed a little golfing and bowling and this afternoon went to Butchart Gardens in motor cars. From the gardens they proceeded to the Victoria Bowling Club, where they enjoyed a light lunch. After the game this evening the team will be entertained at a civic banquet at the Dominion Hotel.

The Scots leave for Vancouver on the midnight boat to-night.

WIMBLEDON TENNIS

Wimbledon, June 22.—Mrs. Molla Bjurstedt Mallory, America's women's singles tennis champion, defeated Mrs. Arthur C. Green, 6-3, 6-2, in today's round of the British grass lawn tennis championship here.

Major A. R. P. Kingscote, British Davis Cup team star, defeated F. Gordon Lowe, veteran British player, in straight sets, 6-2, 6-3, 6-3.

TENNIS HANDICAP GETS UNDERWAY

Great Activity at Victoria Tennis Courts; Several Close Games Played

The club handicaps at the Victoria Tennis Club courts got away to a fine start yesterday afternoon. Twenty-nine matches were played, a number of them going the limit of three sets with very few one-sided.

Where the scores appear uneven they do not actually represent the play. So far the handicapping committee have caused no complaints.

In the men's singles the surprise packet was the defeat of Dr. Young by Wilkinson, the famous Five C's bowler in three sets after losing the first set. Foulkes had a narrow squeak with Stanier.

In the mixed doubles Miss McClintock and Cameron had a long struggle with Miss Watson and McQuade eventually nosing them out by the odd set.

One of the best games was between Mrs. Rickaby and Henstock, and Mrs. D. Gillespie and J. R. Matson, which was won by the former after three sets. Miss Hodgins and T. N. A. Hodgins also won from Miss Thorpe and Willsher after three strenuous sets, the second going 7-7.

In the ladies' singles three of the matches were three sets. Mrs. Gillatt defeating Mrs. Sayers, Mrs. Deniston defeating Mrs. Harlow and Miss Appleby defeating Mrs. Young.

America Wins Second Polo Match and Cup

English Team Is Defeated 10 to 6 In Match Played At Hurlingham To-day; Challengers Played Splendid Game and Obtained Early Lead; Result Was Expected.

Hurlingham, London, June 22.—America to-day regained possession of the international polo trophy, defeating Great Britain in the second match 10 to 6, and winning the series, two matches to none.

The international match was for the best two in three games. The American team won the first game, played last Saturday, by a score of 11 to 4. By to-day's American victory the trophy, which the British team took home to England as a result of its victory at Meadowbrook in 1914, returns to the United States. The trophy is a cup which has been contested for since 1886. The match just concluded was the eighth international series, of which each nation has won four.

Hurlingham, London, June 22.—The United States scored the first goal in the second of the international games here to-day between four representing Great Britain and the United States. The goal was scored by Louis Stoddard, playing No. 1 for the United States team. Two other goals for the United States followed shortly. The second American goal was made by Thomas Hitchcock, Jr., at No. 2 and the third by Stoddard.

The British player failed to score in the first period.

The teams were:

American Position English
L. Stoddard, No. 1 Lt. C. Tomkinson
T. Hitchcock, Jr. No. 2 Major Barrett
J. W. Webb, No. 3 Lord Woodhouse
D. Milburn Black Major Lockett
Referee—Lieut. General Sir Beauvoir de Lisle.

London, June 22.—Great Britain's team to-day faced the United States challengers in the second match of the series for the international cup. The first game played last Saturday was won handsily by the United States players.

Reports were current last night that Major Barrett, the No. 2 on the British team was suffering from an injured hand and might not be able to play to-day. Lord Dalmeny was ready to take his place. Captain Milburn, of the United States team was reported this morning to be in splendid condition and will lead the invaders.

There was little optimism to be seen in to-day's forecasts of the match, nearly all writers admitting that a United States victory was very probable.

Interest in the series of games was in no wise diminished because of Saturday's defeat for the British team.

BRITISH GREETINGS

AMONG HUNGARIANS

but Short Style of Salvation Seems Failure

Sympathy for England has always been very strong in Hungary, but the last two years it has been approaching anglophobia. Attempts have been made lately to transplant to Hungary the conventionalities of British society, according to a mail dispatch of the Associated Press from Budapest. A "League for the Propagation of British Etiquette" has been formed, which is trying to reform some modes of Hungarian intercourse. The League first concentrated its efforts on abolition of the customary

inevitably following the casual greeting of two persons and to receive it by a simple "How do you do?" With this object the members of the League are strolling the whole way along the streets, yearning for opportunities to instruct the public in a new way of greeting and parting. When a man or woman is greeted, with the smiling anticipation of a conversation on his face, nears one of these persons, stretching out both his hands warmly, the member of the League stiffly bows his head, cries "Good morning," and hurries away before the thunderstruck individual is time to recover.

Little Result.

"We have done our best for the introduction of this good old English manner of greeting, but with little result," stated Baron John Bornemann, president of the League. "Somehow, the people are not getting on with our

men passing him I said the new word you do."

"Would you believe that that man pipped me, clung to my coat sleeve and with eyes expressed his gratitude for my interest in his personal welfare and entered into a detailed depiction of his ill health."

"At that moment another member of our League approached and, unprompted, of course, he said to me: 'How do you do?' I escaped by waving the Hungarian clinging to my League's sleeve, reciting the same words from beginning to end."

"No," concluded Baron Horowitz, "I am not very bright, but I am sure that the short manner of greeting will have a success in my country."

DETERMINED TO ACT ON SCHOOL

PROBE REPORT

School Trustees Unite in Support of Investigators

Victoria School Trustees are now a solid unit in their determination to carry out whatever recommendations may be made by D. L. MacLaurin and G. A. Ferguson, special investigators appointed by the Department of Education to probe the present conditions of friction existing among the teachers of the High School, it was learned today.

Having asked the Education Department to conduct an enquiry into the High School, the Board has no intention of balking at any suggestions that the special investigators may make. It is understood that the Trustees agree that, if the investigators recommend the dismissal of certain teachers, these dismissals must be made on the strength of the investigators' statements. Members of the Board are known to believe that conditions in the High School must be radically changed as they have been unsatisfactory for some time, it is said.

In answer to criticism of their action in asking the Government to probe High School conditions, Trustees declare that the School Board could not possibly carry out such an enquiry now as it is employing no municipal inspector. Besides, they state, the Public School Act provides that such matters should be referred to the Council of Public Instruction.

Basket Picnic.—The Oaklands Parent-Teacher Association is holding a basket picnic at the Willow Beach on Friday, June 24, at 2 o'clock. All members and friends are cordially invited. A good programme of sports is being arranged.

RICH B. C. LANDS TO GET SETTLERS

Owners of Big Blocks Start Drive For New Citizens

Hand-picked settlers are to be brought to British Columbia in large numbers to fill up the vacant lands in Northern and Central parts of the Province, according to plans just completed by owners of large areas.

J. G. Wood, of the Rattenbury Lands Company, arrived in Victoria today to confer with Premier Oliver on the immigration plans. He said that owners of large areas, besides the Rattenbury corporation, have come together and made an arrangement to get settlement started. Most of the owners of these lands are in England. According to plans explained by Mr. Wood an extensive advertising campaign will be carried on to get prospective settlers interested and started towards this country.

Some of the choicest lands on the continent will be offered these settlers, who will be given their choice of locations in the Bulkley or Nechako valleys or around Vancouver, Prince George or Lillooet. Everything will be done to help them become prosperous British Columbians and good Canadians.

B. C. NOW FREE OF FOREST FIRES

Fire losses in British Columbia during the last week have been lighter as the weather has been showery and conditions safe, with no new fire outbreaks, according to the report to-day of P. Z. Caverhill, Chief Forester. In not one district are any fires reported, burning. Every area reports frequent showers, and all fires out.

Island School Boards Will Seek Recognition of Separate Status

Conference Yesterday at Duncan Resolves to Ask B. C. Trustees' Association For Divisional Body; To Hold Teachers to Adequate Notice.

Trustees representing a number of the Island School Boards met yesterday at Duncan municipal offices and appointed a committee to take up with the British Columbia School Trustees' Association a proposal to amend the by-laws in order to create divisional school board areas in the Province, and in this way give scope for the establishment of a Vancouver Island division, as well as other divisions elsewhere in the Province.

The conference had its genesis in correspondence between the Nanaimo and Duncan-Cowichan Consolidated Boards, which resulted in the Duncan Board calling the gathering. Some of the Boards, as Victoria and Oak Bay, declined on the ground that a separate association would be detrimental, but apparently this course was not contemplated, or at any rate, if it were planned the idea was abandoned soon after the meeting opened. The conference soon resolved that no steps should be taken antagonistic to the central association, and that membership of the Islands Boards Division should not be permitted unless the municipal boards were themselves members of the parent body.

To take the subject up with the B. C. Association the conference appointed W. M. Dwyer, chairman of the Duncan Consolidated Board, who presided over the gathering, and Trustee Hodgson of Nanaimo.

Release of Teachers. The next most important proposal to that of an Island Division reached by the conference was to adopt a resolution recommending that in future no teachers should be engaged unless a satisfactory release was presented from the last employer. In other words boards will be encouraged to prevent teachers jumping their employment to go to other Boards, thereby leaving the trustees at the commencement of the school year with a shortage of staffs, while under the school law teachers have the advantage of thirty days' notice from their Boards.

While dealing with this matter Municipal Clerk Cowper of Saanich, who is secretary of the municipal school board, read the proposed agreement with the teachers of Saanich, which provides against teachers suddenly leaving their employment.

Salary Bait to Teachers. On the other hand the conference felt itself bound to discuss in this connection the salaries of teachers, owing to the lack of uniformity of salaries throughout the Island, and from Courtenay was offered the suggestion that a uniform scale should be adopted grading the classes and salaries.

Inquiry elicited that Courtenay was paying low salaries in comparison with other Boards, and would not stand for an advance, therefore, although a friendly understanding was promised not to encourage tempting offers to teachers to change their positions.

Nanaimo Salaries. The conference was greatly interested in a statement from Trustee Hodgson of Nanaimo, with regard to the recent salaries arbitration. There the Board has suggested to the trustees a maximum premium be paid to all teachers who have served

ten years or over in the city schools. This is a novelty in the Province, and whether it will generally prevail or not remains to be seen.

The Nanaimo delegation explained that city has secured the advantage of an inspectorship under direct trustee control, without the appointment of a municipal inspector, by appointing a supervising principal having jurisdiction over all graded schools, each school having its own assistant principal.

Conference Satisfactory. The delegates expressed themselves at the close well satisfied with the conference, and voiced their thanks to Chairman Dwyer and Clerk Janet Greig, who acted as secretary.

The Delegates. In addition to Mr. Dwyer, Trustee O. T. Smith represented the Duncan-Cowichan Board delegates, although all members of the Board were in attendance.

Other Boards were represented as follows: Saanich—Trustee Thorne and Clerk H. S. Cowper.

Nanaimo—Trustees Hodgson and Daykin.

Ladysmith—Trustee Wright.

Port Alberni—Trustee Hart.

Courtenay—Trustee Kilton.

TO ATTEND FUNERAL

The Hon. J. D. Kinz, Minister of Public Works, is leaving Victoria to-day for Revelstoke to attend the funeral of Alexander "Sandy" McEae, the best known old-timer of the interior, railroad man and political power of that part of the Province, who died on Monday.

PLAN TO EXTEND

POLICE WORK TO PROTECT GIRLS

Police Board Considers Extension of Policewoman's Functions

Extension of the police work carried on among delinquent women and girls by Miss Wark, Special Policewoman, will be considered by the Police Commission when it meets Friday night. Police Commissioner Dr. Hall stated to-day. The Commission will consider the advisability of broadening the scope of Miss Wark's work in order to provide more protection for young girls here. It has been suggested that a special department of the police force be formed under Miss Wark's direction to carry on work among women and girls and this plan will be given careful consideration by the Police Board.

Hear Liquor Report

At Friday night's meeting Chief of Police John Fry will report to the Commission on the present liquor situation. The Chief will tell the Commissioners just how the new liquor law is working out here, and make any suggestions he may see fit with regard to the Board's liquor policy. It is expected that the Chief's description of conditions will largely determine what action, if any, the Board will take to see that the liquor law is enforced to the limit.

Confident on Salary Issue

Dr. Hall to-day expressed confidence that the Police Commission would "win our fight" with the City Council for higher police salaries. "At our meeting with the Government yesterday on the salary question," said Dr. Hall, "Mr. Parris, the Attorney-General, said that the clause under which the City Council was appealing to the Lieutenant-Governor-in-Council is part of an old statute placed on the Statute Books before the Government gave the municipalities the right to elect their own police commissioners. The Government having given the right to the municipalities to elect their own commissioners, it seems to me it is not up to the Government to interfere."

G. W. V. A. to Move.—Arrangements have been concluded whereby the G. W. V. A. will vacate its present quarters in the Ritz Hotel building and will take a sub-lease of part of the quarters occupied by the Veterans of France of Douglas Street. A meeting of the Veterans of France has been called for Friday night at 8 o'clock to ratify the terms of occupation.

NOW READY TO HEAR CABARET ARGUMENTS

Dr. Hall Claims Council Failed to Fulfill Invitation

Announcement by Mayor Porter that he had called a special meeting of the City Council for Friday afternoon when he would allow Police Commissioners Dr. Ernest Hall and Joseph North to speak on cabarets, and the assertion of Dr. Hall that he and his colleague had been refused a hearing by the Council Monday after being invited to speak, brought Victoria's cabaret problem to the fore again to-day.

"I have called a special meeting of the Council for Friday afternoon to get final action on the woolen mill scheme," the Mayor said, "and we shall be glad to hear any statements that Dr. Hall and Mr. North may wish to make at that time. As for my refusal to allow the Commissioners to speak on Monday, I have no excuse to make for that. Our rule is never to hear deputations on Monday nights, and I told Dr. Hall and Mr. North that they had better come in before I came into the Council Chamber Monday."

Dr. Hall gave out a statement on the whole question to-day, following the declaration of Alderman Sangster, formerly Acting Mayor, that he had not invited the Police Commissioners to address the Council last Monday. "If my memory serves me right, Alderman Sangster invited us to the next meeting of the City Council," Dr. Hall declared. "I understood his invitation thus: Mr. North understood it thus and in the Times of June 11 the same statement was made. Surely we are not all wrong."

After his appearance before the Council with Mr. North Monday night when he was refused a hearing, Dr. Hall would not address the Council, he said, until he had received a formal invitation from the Mayor. He invited from the Mayor, he said, that he and Mr. North were not a little disgusted with the treatment they had received and did not propose to undergo another affront. Since Dr. Hall and Mr. North declared publicly that they had been invited to attend a Council meeting and then refused a hearing, Alderman Sangster, who is alleged to have given this invitation, has been called to account.

The death occurred yesterday at St. Joseph's Hospital of Annie Isabelle Polson, daughter of Mr. and Mrs. A. Polson, of 736 Cloverdale Avenue. She was born in Killarney, Manitoba, and had been a resident of this city for the past thirteen years, and is survived by her parents and one sister. The remains will repose at the Sands Funeral Chapel until Saturday, June 25, when the casket will be removed to the residence from where the funeral will take place at 2 o'clock. Rev. W. L. Macrae will officiate. Interment will be made at Ross Bay Cemetery.

COURT OF APPEAL

Case of Murphy vs. Barr Continues; Bankruptcy Case Next.

The case of Murphy vs. Barr was still before the Court of Appeal this morning and the appeal in Re Striling and Pitcairn and the Bankruptcy Act will be commenced this afternoon.

This concern engaged in a large apple packing and shipping business in Kelowna and Vernon and early this year made an assignment authorizing a trustee for the benefit of the creditors. The Okanagan Land & Investment Company was appointed trustee, but two of the principal creditors, the Bank of Montreal and John Kidson, objected on the grounds, among others, that the company was connected in various ways with the bankrupt concern.

An application was made to Mr. Justice Morrison to appoint another trustee but the application was refused and an appeal is now taken. The appellants, however, on the threshold of the case, met with the preliminary objection that there is

Ottawa Ministers Clearing Up Work Before Holidays

Ottawa, June 22.—(Canadian Press) Although the Prime Minister, the Acting Prime Minister and three of the active members of the Cabinet are out of town there does not seem to be any slackening of work in the Cabinet. Apparently there is an effort to clean up routine work so as to leave Ministers free to take holidays later on, and daily sittings of the Cabinet are in order.

Hon. J. A. Calder, Minister of Immigration and Colonization and President of the Privy Council, has taken upon his shoulders the administration of the Department of Agriculture and the Department of Marine and the Naval Service in the absence of Hon. S. F. Tolmie and Hon. C. C. Buller. Senator Ross, Minister of Labor, who returned yesterday from Medicine Hat, is administering the Department of Militia and Defence in the absence of Hon. Hugh Guthrie. The Department of External Affairs, which is the special province of the Prime Minister, is being handled by Sir George Foster, who, at the moment, is out of town.

To New York. Rt. Hon. C. J. Doherty, Minister of Justice, has gone to New York this afternoon to meet the French delegation which is coming to Canada, but that is not definitely decided. The Ministers who remain at their posts will probably pay visits to their constituencies during the next two months, but the return of the Prime Minister in August is likely to see the majority of them back in the capital.

FOSTER STATES MONEY SAVED

Reorganization of Canadian Civil Service

Ottawa, June 22.—In a statement handed out just before leaving Ottawa for a brief holiday, Sir George Foster, Acting Prime Minister, answered criticisms which have been levelled at the Government as a result of the reorganization now taking place in the civil service. Sir George stated that a saving of \$450,000 had been effected as a result of the reorganization of the Printing and Stationery Branch, that \$750,000 would be saved as a result of the reorganization of the Customs Department, and that the annual saving in administrative expenditure as a result of the reorganization of the Postoffice Department probably would exceed \$1,000,000. In addition to the saving effected, greater efficiency had been attained.

Economy. According to Sir George there is a call for the elimination of unnecessary expenditure which is upheld generally by public opinion. On the other hand, when the Government attempts to cut down costs by reducing staffs, there is an immediate complaint from those affected.

"It is obvious," he said, "that no change for the better can be made if heed is paid to this criticism."

CIVIC PICNIC

DRAWS CROWDS

Big Turnout at Mt. Douglas To-day; Event Great Success

People thronged to Mt. Douglas Park by the hundreds to-day to participate in the civic picnic arranged by the Chamber of Commerce. A most delightful time was spent by the huge crowd roaming about the beautiful park and many were to be seen at the picnic. The affair was a complete success.

Mt. Douglas Park is practically unknown to the people of Victoria. The Saanich Branch and Parks Committee has done a great deal of improvement work on the grounds and the result is entirely satisfactory. In the way of establishing a splendid park attraction.

Shelbourne Street forms the well-paved highway linking Victoria and Mt. Douglas Park, and it is this thoroughfare which the Chamber of Commerce proposes to boulevard and plant with trees bearing tablets engraved with the names of the heroes of British Columbia who fell in the Great War as a Memorial Avenue.

To introduce Scheme. In order to get the citizens of Victoria more closely acquainted with the entire scheme and introduce them to what will soon become one of Victoria's best known and popular attractions, the Chamber of Commerce arranged the outing. Motorists were also interested in the automobile parking site, which will also form one of the chief features of the entire scheme. This is located conveniently near the park.

Owing to the fact that a half-holiday had been chosen by the Chamber of Commerce for the big event, added to which the weather conditions were ideal for such an outing, it was possible for large numbers to attend the picnic. Special arrangements had been made for jitney service from the Library, commencing at 2.30, but long before that hour scores of private automobiles carrying family parties

with their baskets of good things to eat, were seen wending their way to the park. There was one constant stream of cars passing to and from the park all afternoon and, in fact, a good many went out in the morning and made a day of the celebration. Maypole and Butterfly dances by eighteen charming maidens under the direction of Mrs. M. Walker, games, and the climb to the top of Mt. Douglas (Cedar Hill) formed part of the afternoon's programme, while to-night the band of the G. W. V. A. is giving a concert and will afterwards furnish music for dancing.

Everybody Happy. The picknickers settled down in keen enjoyment of the outing and the children were particularly happy and enjoyed themselves in various ways. That great convenience for basket picnics, hot water, was arranged for and everyone was well supplied with this commodity for tea and coffee making.

A refreshment counter added considerably to the enjoyment of the picnic and all kinds of soft drinks, candies, ice cream and other dainties were available to the picknickers. Free theatre tickets were given to the first one hundred people reaching the summit of Cedar Hill and signing the register. The view from this point is simply wonderful and well repays those who take the trouble to make the climb. Charming pathways have been made through the park to this point. The Royal Victoria Theatre, Dominion Variety and Princess donated the passes for this event.

ESQUIMALT OFFERS INDUSTRIAL SITES

Reeve, Board of Trade and Others Behind Industrial Expansion Movement

In a statement to The Times to-day, Reeve Lockley of Esquimalt stated that his municipality was prepared to offer every assistance towards the encouragement of industrial activity within its limits.

The new Hudson's Bay Company subdivision with other recently opened areas has afforded a wide space of land that had excellent facility for industrial expansion. Long stretches of trackage are available, as well as abundant water frontage on navigable waters of the harbor.

Every assistance is to be offered to private concerns who wish to take up sites, and the municipality is out to make Esquimalt an ideal industrial centre from every standpoint. The backing of J. C. McIntosh, M.P., and R. H. Pooley, M. P. P., has been secured, and the united township is out after industries with specially attractive offers for sites at reasonable figures with every co-operation from the municipal council to make for the success of all projects thus created.

Woolen industries with many others would have a wonderful opening within the limits of Esquimalt, stated the Reeve, who is enthusiastic over the facilities for expansion and manufacturing in that district. The Esquimalt Board of Trade is behind the movement, from which much is expected.

Two law firms have resigned as counsel for Mrs. James A. Stillman in her husband's divorce action and her side of the case is in complete charge of John F. Brennan, Yonkers.
